U. S. May Plan Retaliatory Move Against Germany

Formal Assurances Demanded For Protection Of Americans In Germany

ANOTHER NOTE SENT THURSDAY

U. S. Wants Formal Notice Decrees Will Not Apply To Americans In Germany

By ROBERT G. NIXON
International News Service Staff Correspondent

WASHINGTON, Dec. 16.—The United States may "crack down" on Nazi Germany unless formal assurances, backed up by performance, are promptly forthcoming from Berlin that Americans will not be touched by the Nazi anti-religious and anti-racial decrees, it was indicated today.

A strong hint of possible retaliatory measures was seen by diplomatic observers in the wording of the state department's sharp, terse note of yesterday.

The note, latest in an extended series resulting from Nazi persecution of Jews, significantly reminded the Berlin government that Germans in the United States are accorded all the rights and liberties of American citizens.

No Distinction

"It is one of the fundamental principles of my government," the American note asserted, "to make no distinction between American citizens on the basis of race or creed, and uniformly in its relations with foreign nations it has emphatically

PA NEW OBSERVES

Although folks who have secured their 1939 license plates are now able to use them, Pa. Newc noticed only a few cars about town today which bore the new plates. The number will probably steadily increase until the first of the year.

In setting up the Christmas tree don't forget to take precautions against fire. Pines are very inflammable, especially after they become dry. A good plan is to set the tree in water, if you expect it to be up for some time. You should see that it is securely fastened so that it will not tilt over. Examine your electrical wiring and be certain that it will carry sufficient amperage for the number of lights you are displaying. Caution children not to strike matches, or carry any unprotected lights near the tree.

County Court Crier Clifford Vance is all puffed up over a gold badge which he received as a Christmas present yesterday from tipstaves Thomas Hinkson and W. H. Cole, and interpreter Mary Conl. He is inscribed, "Crier of Lawrence County courts." Vance has been wearing a silver badge, same as the tipstaves, and his new "gold" badge will be a mark of distinction which he may well feel proud. However, he will still be wearing the same sized hat in case there are any more Christmas presents in the offing.

Germany's Proposal For Advance Credits Fails To Get Approval In Britain

By CHARLES A. SMITH
International News Service Staff Correspondent

LONDON, Dec. 16.—Disclosure that the Bank of England has refused to grant immediate credits to Germany today followed Prime Minister Neville Chamberlain's warning that British economic and financial power might triumph in any war between Great Britain and the Nazi Reich.

It was learned on excellent authority that a proposal for the Bank of England to advance credits to Germany in connection with an Anglo-German trade understanding was turned down by Montagu Norman, governor of the Bank of England.

Significant Development

The proposal was advanced by Dr. Hjalmar Schacht, president of the Reichsbank, who is in London as Norman's guest.

Rejection of the idea took on added significance in view of Chamberlain's address yesterday before a luncheon audience in the house of commons. With London-Berlin relations still strained by Germany's boycott of his press association speech Tuesday night, Chamberlain said:

"We may take it that when German statesmen—I will not say the German people—reflect on the possible consequences of a conflict, if ever a conflict arises between our two countries, they will not only

The matter was presented to the board by J. M. Fry, assistant director of Agricultural Extension in Pennsylvania, and the proposal was given the unanimous approval by the board.

Mr. McCulloch is rounding out his fourteenth year of service in Lawrence county, having been sent here by Penn State college to carry on the work of the Extension Department in the spring of 1925. Former King Alfonso Would Return To Spain

If Asked To Return Former Monarch Will Go Back To His Native Land

(International News Service)

LONDON, Dec. 16.—Former King Alfonso is willing to return to Spain, from which he fled in 1931, provided he is requested to do so, according to a statement given today to Reuters News Agency.

A secretary of the ex-monarch, in a telephone interview with Reuters, said that Alfonso has not yet received official confirmation of the Burgos decree restoring his full citizenship and property rights.

Asked whether the former monarch would return to his homeland if such confirmation were received, the secretary replied:

"Of course, if he is asked."

In response to a question whether Alfonso's second son, Don Jaime, would go to Spain in the future, the secretary added:

"That is a question his royal highness doubtless will settle for himself when it arises."

Grand Jury Investigation Of State Graft Charges Formally Under Way

"GRAVEL SCANDAL" FIRST TAKEN UP

Secretary Colegrove Is First Official Called To Testify Before Grand Jurors

(International News Service)

HARRISBURG, Dec. 16.—Dauphin county's grand jury investigation of the Democratic state administration, projected after seven months of legal maneuvering to halt it, today "bit deeply" into the first of eight charges of graft and political corruption leveled against Gov. George H. Earle and 13 associates.

The so-called Erie "gravel scandal" case was aired before the jury by Secretary of Property and Supplies Arthur Colegrove, Corry, Pa., publisher, who said, before going before the grand jury, he intended to tell the same story he related to the seven-month house investigating committee during its 11-week probe of the same charges.

"That's the only story I can tell," Colegrove commented.

Margiotti Monday

Meanwhile, it was learned that former Attorney General Charles J. Margiotti, chief accuser of the Earle administration, would probably appear before the jurors on Monday.

Margiotti, fired by Earle during the heated primary campaign last spring, tossed most of the charges into the open while he campaigned

Woodring May Quit Cabinet

Report He May Follow Action Taken By Secretary Roper Thursday

PRESIDENT SILENT ON ANY SELECTIONS

By GEORGE DURNO
International News Service Staff Correspondent

WASHINGTON, Dec. 16.—Still another shift in President Roosevelt's cabinet was forecast today, hard on the heels of the resignation of Daniel C. Roper as secretary of commerce.

Men who customarily have an accurate ear at the White House predicted that Harry H. Woodring was about to give up his portfolio as secretary of war, and become the third cabinet officer in the current month to express a desire to revive his personal fortune.

President Silent

Meanwhile Secretary of the Interior Harold I. Ickes turned back to the business of being a cabinet member after deciding he preferred to remain at his present post rather than enter Chicago's mayoralty race.

At his press conference this morning the president was smilingly uncommunicative regarding his choices—if he has made any definite choices—for appointments to existing cabinet and supreme court vacancies. He said simply he was not ready to discuss the subject.

In addition to the Roper resignation, which becomes effective a week from today, the attorney generalship will become vacant January 1, and Mr. Roosevelt must appoint someone to succeed Homer S. Cummings. The supreme court opening was left by the death of associate Justice Benjamin N. Cardozo.

TWO BROTHERS ARE COUPLED IN FIRM

Fantastic Story Of Finance Is Revealed In Indictment Aftermath

By WALTER KIERNAN
International News Service Staff Correspondent

NEW YORK, Dec. 16.—Philip Mosica, the swindler and confidence man who masqueraded as F. Donald Coster to become the head of the gigantic McKesson & Robbins Drug combine, killed himself today in the bathroom of his home as he was about to be arrested for his part in the disappearance of \$18,000,000 in assets of the company.

Mosica, of Coster, 111 in his Fairfield Conn., mansion since his indictment, and yesterday exposed as a member of a notorious family of swindlers, shot himself through the head a few moments after his arrest had been ordered by the U. S. attorney's office.

Brothers Indicted

The man whose criminal record as Mosica dated back to 1909, and whose business and social record as the disgraced drug manufacturer, Coster, dated from 1914, had been reported "very ill" early today.

As the morning wore on it brought the disclosure that "Coster," two of his associates, George Dietrich and the latter's brother and George Vernard were, in reality all brothers. Vernard and Dietrich had been named with him in the indictments. Apparently convinced that the jig was up, the man who had built

Kennedy Has Refugee Problem Plan

Envoy Is Back From London

Going To Washington For Conference With President Roosevelt

LAND FOR HAVEN TO BE PROVIDED

(International News Service)
NEW YORK, Dec. 16.—Before heading for Washington to make a direct report to President Roosevelt, Ambassador Joseph P. Kennedy today revealed he has brought back from London a workable plan for the prompt solution of Europe's refugee problem.

The United States ambassador to Great Britain also blasted the German persecution of Jews, asserting: "I think it's terrible, the most terrible thing I ever heard of. And I will probably lose my job for saying that. You might also say that I am only sharing the sentiments of our president. Oh how I would like to say a lot more!"

Land To Be Provided
The smiling New Deal millionaire, after his arrival on the Queen Mary, disclosed that the world need worry no longer about land to provide a haven for persecution victims.

"England is ready to take care of that," Kennedy declared. "There is no doubt in my mind that she will come through with ample land for resettlement work, when the time comes."

What demands immediate action—and what he will take up with the president—is sufficient funds to transport the unwanted minorities from their present homes and set them up in new lands.

He was confident that other nations can be persuaded to cooperate in an international loan, particularly if the United States leads the way.

think of our armaments, but of our great financial resources which in a war of long duration might well prove the deciding factor."

Norman told Schacht that such credits to the Reich would be regarded as a loan which the Bank of England is in no position to undertake without approval of the British government.

Apparatus Must Precede

He added that the government's policy rests on the principle that political apparatus must precede any credits or trade understanding.

Schacht outlined several German trade policy proposals which he intended to make to the British government shortly. They include:

—An agreement between Britain and Germany on division of trade in southeastern Europe, giving the Reich a preponderance of the commerce in that area.

—An understanding permitting Germany to make trade agreements with her former colonies, giving the Reich priority in acquiring raw materials from these sources.

Schacht said Germany urgently needs to expand her trade and that she wants Britain and the United States to increase their purchases

of German goods, paying cash or credits, in order to finance the German trade drive elsewhere.

Norman said this would be regarded as a loan, but Schacht contended Germany needs raw materials and therefore must have room for exports. He asked whether Britain would agree to a ratio in trade so that the Reich would have a 50 per cent share in southeastern Europe.

If Germany cannot have colonies, he contended, she must have the right to acquire supplies and commodities from the Ukraine, Rumania, Yugoslavia and other raw material sources.

At the State grange meeting just closed at Washington, Pa., it was the opinion of the convention that no person should be allowed to vote who does not pay taxes. When it comes to common sense recommendations, you can always rely on the farmers.

The various governmental agencies seem to be doing everything possible to make loans available to everyone. Looks as though the idea is to get everybody in debt, like the government. What the people really want is the opportunity to earn their money. The individual can get rid of his debt as easily as can the government. He must pay it by the sweat of his brow, and not by laying taxes on his neighbor.

With Christmas approaching we don't know of any manner thief than the one who goes out and steals a farmer's poultry. Happily there have been no poultry thieves reported in Lawrence county, but Pa. He had worked hard to raise those turkeys and could ill afford the loss.

New Castle seems to have had a pretty good sized fire department over 50 years ago. Pa. You can always count on the fire ladders being present anywhere that there are any cats.

Coming down Rural Avenue yesterday morning Pa. News heard the rat-tat-tat of a woodpecker and looking up into a big oak saw one of the red-headed variety industriously digging for its breakfast. Some woodpeckers, it seems, like some robins, stay here all winter. The woodpecker is a great tree conservationist. His heavy bill enables him to get many insects and grubs that other birds can't reach. When he drills a hole into your favorite tree you may be sure he has located the larva of a destructive wood-boring insect.

According to a woman magazine writer, the women are soon going to be dictating the fashions for men. We wonder where that woman has been sleeping. We have seen some horrible examples in our time worn by hen-pecked husbands, which were picked by the women who bossed them.

HEAD OF DRUG COMPANY FIRM ENDS OWN LIFE

(Continued From Page One)

The McKesson firm into one of the largest combines in the country, only to resort to his old swindling tactics, ended his life, leaving his brothers to face the music.

Brothers Arrested
U. S. Marshal Bernard Fitch and Assistant U. S. Attorney Arthur Gorman of the Connecticut federal district court, reached the Coster home just as the unmasked swindler fired the shot that ended his life.

The two government agents rushed into the house, passed "George Dietrich" (who is George Musica), in the sun room and sped to the private bath, where they found "Coster" on the floor, the gun beside him.

After doing what they could for "Coster", the government men arrested "Dietrich."

"George Vernard", who has been identified as Arthur Musica, had previously been arrested at his home in Brooklyn.

It was nine minutes past noon when "Coster" pulled the trigger and in five minutes he was dead. The bullet had entered his right ear.

"Coster" died without knowing that "Vernard" had involved another Musica in the general unmasking of the notorious family.

Fourth Brother Named
Under constant questioning in the U. S. attorney's office "Vernard" named "Robert Dietrich" as the fourth Musica brother—the only one unaccounted for after "Vernard," "Coster," and "George Dietrich" had been identified as Musicas with an unsavory reputation dating back many years.

Still unaccounted for were two sisters of the Musica boys—Louise and Grace—like the male members of the family—dropped from sight in 1913 following the exposure of a wholesale human hair business as a fraud.

There has been a woman at Coster's home in Fairfield. She was known as "Mrs. Carol Coster" in whose name a huge brokerage account was controlled by "Coster."

Fantastic Story
New York, Dec. 16.—The fantastic story of control of the McKesson & Robbins company sealed incredible heights today when it was revealed that three officers of the company are members of the notorious Musica family of swindlers.

F. Donald Coster, president of McKesson & Robbins, was identified as Philip Musica.

George Dietrich, assistant treasurer and vice president, was identified by the New York Journal-American as George Musica.

Unmasking of the three McKesson officers was followed by orders for their immediate arrest. Previously they had been indicted for giving false statements to the securities and exchange commission but not arrested.

Officers sped to the Brooklyn home of Arthur—known as "George Vernard"—and when they were released admission, threatened to shoot the lock of the door.

Investigators also hoped to find Louise and Grace Musica, sisters of Philip, Arthur and George, who, like the male members of the family, disappeared in 1913 after Philip had taken the rap for a family swindle operated under the guise of a company dealing in the wholesale merchandising of human hair.

In their investigation, the probes are scrutinizing a large brokerage account carried under the name "Mrs. Carol E. Coster."

Police records on "Vernard" show that he was arrested in 1933 on a charge of felonious assault but the case was dismissed. Vernard was finger printed at the time but following his release, demanded—and received—the copy of his finger prints.

A reporter who went today to the address which Vernard gave in 1933 noted an automobile, laden with baggage, in front of the door. The registration was that issued to Vernard and when the information was passed along to Assistant U. S. Attorney Lester C. Dunigan, the ordered "G-men" to the address.

Meanwhile, Vernard had been positively identified as Arthur Musica by his secretary, Eleanor Lochner, who told Assistant Attorney General McCall that she first learned that Vernard was Musica when she found a statement in the private papers of W. W. Smith & Co., a McKesson agency.

The statement apparently "was from his wife," she said, and in it "she said his real name was Arthur Musica."

Testimony also piled up that the Musica family had used other names.

The American government warned Germany that it cannot tolerate application of the discriminatory decrees to Americans.

"The application to American citizens of the measures referred to would be incompatible with this (fundamental) principle," the note sternly admonished.

Acting Secretary of State Sumner Welles, questioned concerning future steps, declined comment, but did not close the door to possible retaliatory action.

Jim: Read this note before you open this package Mary

Dear Jim,

Do you remember last Christmas? I gave you some neckties. You said they were very nice, but there was something about Santa Claus that had forgotten I want upstairs and dried.

I thought how wonderful Christmas must have seemed when you were become a day. And how it had gradually faded away. You had not even remembered a whole year to give you something that would really bring back the feeling of Christmas the way you used to do it. And I hope it will remind you for many, many years that I think of you are the best fellow in the world—even though we sometimes forget to say so.

THIS LAND OF LIBERTY

DISAPPOINTED with American life?

One who is may well heed a statement recently made by George H. Mattiam, vice president of the New Jersey State Chamber of Commerce. Here it is:

"This is a good time for us to remember that the rest of the world envies us for our opportunities, our shorter working hours, our higher wages, modernized services, higher standards of living, educational advantages, and our Constitution which guarantees a free press, free speech, freedom of religion and personal liberty."

And that is in no sense a superficial effusion of flag-waving, eagle-screaming patriotism. It is simply cold fact.

To be sure, there are certain governmental leaders in Europe and the Orient who scoff at American institutions and brand our conception of freedom as a sign of administrative weakness. But to the rank and file of humble people in all parts of the world this country still stands forth as the symbol of liberty, the exemplification of national life at its best.

INCOME TAX AND WAR DEBT DAY

Thursday was the day when payments from European nations were due on their war debts to the United States, and it also happened to be the date when the treasury in Washington demanded the final installment for the year on income taxes.

Most persons subject to this tax, which constitutes such a heavy burden, have to make provision for its payment long in advance. Many have to dig down into their savings. Some have to sell securities. Almost all feel the pinch of this recurrent and unwelcome obligation which can not be dodged or postponed.

"Please remit" notices on the war debt accounts, now long overdue, went out to our foreign debtors two weeks ago. We now know that none except little Finland planned to meet her just obligation.

The biggest current bill went to Great Britain: \$122,000,000. The London News Chronicle has published the results of a poll of the British people. Eighteen per cent think their government should pay the United States in full. Fifty per cent favor cancellation. Thirty-two per cent urge a reduction. The debt has already, of course, been substantially reduced by our government's concessions.

American taxpayers have to pay on the dot whatever their government legally demands. Foreign debtors can snap their fingers when the United States sends its reminders. Some of those debtor nations have plenty of money to spend on armaments. Our government may pile on additional taxes for that purpose. We should appreciate even a few millions on account.

But none of the checks pouring into the United States Treasury Thursday came from foreign debtors. American taxpayers are having to make good in considerable measure the defaults of European nations, whose ability to pay something on their just debts is perfectly plain.

HERE'S REAL LESSON IN HONESTY

Parents of school children in Darby, Pa., were somewhat surprised recently when the superintendent of schools wrote to them suggesting that bona fide reasons, instead of specious excuses, be given when pupils are absent from classes. He urged that, if the circus or some social event is responsible, the parental statement conform with the facts of the case.

This superintendent's idea is to raise standards of honesty all along the line. The thought is that when children see their own parents refusing to cut the corners of simple veracity, they themselves will be that much more inclined toward straightforward dealings with teachers and fellow pupils.

While it is not to be expected that one appeal of this type will absolutely end the resort to "phony excuses," there is some chance that a bit of headway will be made in the general direction of parental integrity. And that, in turn, should induce a more scrupulous conception of a basic phase of human relations among young people who, in the final analysis, are more easily influenced by example than by precept.

It's the end of a beautiful friendship when one reminds the other how much he has done for him.

What's Right With America?

by Albert Shaw, Editor.

I am asked the question, "What's right with America?" My answer is this: The nation's moral fibre is sound, its resources are abundant, its future is promising. Its longer adventures in civilization and social advancement lie yet before it.

Our country, like any other, is made up of its people and its domain, blended in a kind of organic union. This American domain is incomparably desirable. In detachment and continental sweep its position is fortunate. In varied resources it is fitted to sustain a large community. The people of our American nationality are becoming homogeneous. They have attained such unity in ordinary ways of life as no other large nation has ever before disclosed.

We are carrying on a genuine democracy, with failings in detail but success in the broad scheme. The liberties guaranteed in our Federal and State constitutions, however threatened at times, are not extinct. Nor are they moribund. We hold to our rights of free speech, free press, and individual choice in private concerns.

Are some of these liberties menaced in one quarter or another? Perhaps, but we are not helpless. We have ample leverage. We have liberty enough to fight for any or all our imperiled liberties, when the occasion demands. Is it true, as some disheartened

people assert, that the nation has lost its pristine virtues? Have we lost physical vitality and moral power? I say, "No!" And I am quite hard-headed and no dreamer of Utopias. My denial is based on a longer view and a wider experience than that of many skeptical Americans.

In averages of health and physical condition, our people today are superior to Americans of earlier generations. Our young people are clear-headed and will find their way out of bewildering conditions of political and economic change. They deserve our confidence. They find this country at peace with all the world, and they will work toward a new brotherhood of mankind.

It would be easy and highly controversial to set down the things that call for prompt correction. Those things are mistakes—egregious blunders in the eyes of exasperated citizens. However, they are transient evils that can be faced and eradicated. A democratic nation grows strong as it makes its history in the struggle for progress.

The Parent Problem

By Garry C. Myers, Ph. D.

TOLERANCE IN CHRISTMAS SPIRIT

Christmas is in celebration of the birth of Jesus and the gospel of Jesus is a gospel of love.

It seems to me that we best reveal this spirit of love as we respect the inherent rights and feelings of the other person as we respect his personality. One of the major contributions in the philosophy of Jesus was His constant emphasis on human personality.

A big part of one's personality is one's feeling and one's feelings are strongest in relation to those things, persons and principles which are dear to us. To the person who is strongly religious, his religious faith is about his most precious possession. To respect this faith is to respect his personality.

Exercise Tolerance
We don't need to accept his faith in order to respect it and him. We only need to exercise enough sympathy, understanding and consideration, to put ourselves in our imagination in the other person's place. When we do this we exercise tolerance.

We then come to this conclusion, that we inevitably grow more tolerant when we really feel and exercise true Christian love.

The Christmas season is a good time for us parents to lead our children, by precept and example, to feel and show a tolerance toward others who think and believe differently from the way we think and believe, especially concerning religion, which is so emotional in its nature.

This is a good time for Methodists and Lutherans and Presbyterians and the various other Protestant denominations to exercise true brotherhood toward one another. It is a good time for all of us Protestants to feel and act with tolerance toward Catholics. It is a good time, moreover for all of us Christians to feel the Christian toward our Jewish brethren toward those of other religions or no religion.

Chance For Teachers
Especially in these days of hatred and intolerance in some other parts of the world, public school teachers have a peculiar opportunity to demonstrate genuine tolerance and dramatize the true spirit of our democracy.

I often wonder how we who profess to be Christians would feel if it were the prevailing custom of our public schools to sing Hebrew songs on a certain Jewish holiday and if our children were then expected to participate.

If I were teaching in the public schools again, I should announce publicly that while I hoped to put on Christmas exercises at school, no child, who, because of his religious or anti-religious beliefs or home training, did not care to participate, would be expected to do so. I would hope, moreover, to induce all other children to show due respect for the conscientious, non-conformists, in taking this stand. I believe I fairly interpret the teachings of Jesus. He was a gospel of love and persuasion, not of fear and force.

THE CHRISTMAS LIST

Last night she sighed and said to me:
"Our Christmas list must shortenened be!"
And I had to smile to hear once more
The same old threat of the years before.
The same old threat and the same old sigh
Of the Christmas tides of the years gone by.

So I replied in the same old way:
"Well, whom shall we drop on the Christmas day?"
Shall we cast off Carrie and James and John?
And she said: "No! No!" So I kept right on:
"The Browns? the Greens?" and again I say
She shook her head in the same old way.

She cut off the names of Sam and Jack
But thought for a minute and put them back.
She thought for a minute and said:
"Oh dear!
There are one or two we forgot last year."
So our hearts will go out in the same old way
To the same old friends on Christmas day.

HINTS and DINTS

Sun set tonight 4:36. Sun rises tomorrow 7:15.

We have been offered our choice of an automobile or a pair of suspenders for a Christmas present. We think we will take the suspenders as they make some terrible automobiles these days. We have a pair of pants to keep up and that will be easier than keeping up an automobile.

TODAY'S STORYETTE
A doctor had a diabetic patient, an elderly lady—a grandmother in fact. She was placed on a strict diet, but would not play the game and was cheating all the time.

After every violation the lady got into trouble and the family had to send for the doctor. He became weary of these constant calls, and ordered that she go to a certain hospital where he could control her food and prevent violation of the rules.

Owing to its crowded condition the only available room at this hospital was in the maternity building where the old lady was installed. After she had been there two or three days, her 7 year old granddaughter paid her a visit and was loitering in front of the door of her grandmother's room when some visitors came along.

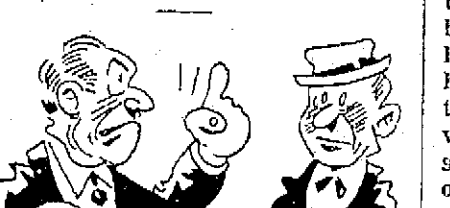

"What are you doing here, little girl?" they asked.
"I'm here visiting my grandmother."
"Grandmother!" exclaimed one of the visitors in astonishment. "What is she doing here?"
"Oh," said the youngster "she's been cheating again."

HIT AND MISS ORATORY
For something like sixteen years in the pursuit of duty we have listened to speeches. Three or four, in all that time, were worth listening to. The other might have been balled down to the following broomsticks: "It is indeed a pleasure to be with you this evening. . . . I am not unmindful. . . . I am reminded of the story of the Scotchman. . . . I make this statement without fear of successful contradiction. . . . The future of America lies in the sanctity of the home. . . . Our mothers, God

HELEN'S FIRST PARTY
When refreshments were served Helen refused a second helping of ice cream with a polite, "No, thanks," although she looked a bit downcast.
"Do have some more," the hostess urged.
"Mother told me to say 'No, thank you,'" the little girl explained, "but I don't believe she knew how small the dishes were going to be."

Good Taste

Reg. U. S. Patent Office

By Francine Markel
Experts in color effects have debunked the old fallacy that women with white hair should confine the coloring of their clothes to lavender or black. Indeed, when you reach this stage, vivid colors will be more becoming to you than when your hair was darker. If your complexion has remained young with prematurely white hair you may even wear vivid red. But if it has faded, you should not go further than soft rose or flesh tints. However, violet and violet-blue will make your skin appear sallow. Avoid also yellow-green, yellow, brown and tan. Blue-green and green will be flattering and, if you have blue eyes, so will be the soft shades of blue.

Reader's Question Answered
Dear Miss Markel—Is it permissible to use paper napkins when serving light refreshments to friends at home?
HOSTESS.
Answer—Paper napkins are suggestive of economy or a picnic and really should not be used with refreshments (no matter how light) to guests in the home.

Cloth napkins of any kind, even of the most inexpensive material, are preferable to paper.

Tomorrow's Girls Inviting Young Men to Dinner

In recent years no winter has been cold enough to bring the red flannel underwear back. In fact it has not been cold enough to bring any kind of underwear back to some.

Mom's makin' biscuits—gee, but they're good!
And Ben is grouchin' and chopplin' wood.
The kitchen lamp on the window sill Shines stiddy and bright, I can see it still.

Long about dark they'll all come in Dad tuckered out, Bill with a grin. Hungry as bears they'll hardly wait for the government, the same state politics warn us that within the next fifty years most of us will be fit subjects for confinement in padded cells.

Our complaint is not chronic. It is either a rash or we have been hypnotized. We are still able to look out for ourselves if we would only let loose and strike out. But it has been preached into us so long that some body is getting the better of us, that they have something that we are entitled to, that we have almost believed it true.

With initiative and individualism stifled and under subjection in several formerly enlightened nations, the signs now point to the probability that the United States is about to become the cultural center of the world.

And what is still more interesting, this new world order that we have been hearing so much about the past few years, is assuming the proportions of a spiritual revolution which is also centering in the United States of America. Much will be heard of this within the next few months.

Democrats Enraged At Guffey
Recent Third Term Talk Arouses
President Wants Idea Kept Quiet

By CHARLES P. STEWART
(Central Press Columnist)

WASHINGTON, D. C., Dec. 16.—Had President Roosevelt known in advance that Senator Joseph P. Guffey was about to inflate a third term boom for him, it is no secret in Washington that the White House tenant would have hushed the Pennsylvania for all he was worth.

It is perfectly obvious that presidential strategy is to keep folk guessing for some time to come on the third term issue. If it becomes apparent that "F. D." is third termishly receptive a terrific row over the question is certain to start within the Democratic party, not to mention the equal certainty that the Republicans will make a lot of capital out of it. If it's definitely announced that he won't accept a third nomination under any circumstances he is bound to lose considerable influence over Democrats in the incoming congress.

True, the subject already had been more or less discussed before the Quaker statesman's ebullience concerning it, but it was rather vague until the Pennsylvania exploded. He brought it so prominently into the headlines that it will be difficult for the executive mansion to ignore it much longer.

HE CAN'T ASK
The best political betting is that his excellency would like to be drafted, but he can't say so; else it would be a bid, not mere acquiescence in conscription. On the opposite hand, should he serve notice that he won't even be conscripted he forecloses himself against conscription. For that matter, possibly he could yield reluctantly at the last moment. All the same, it would be risky for him to eliminate himself.

The World AND THE Mud Puddles

GET SELF RELIANT

One of the invariable habits of nature, as well as all the sciences, is that everything at all times is undergoing change, and being too dumb to keep up with it, we are losing our nerve and either want to fight, commit suicide or be trundled off to an asylum for the weak-minded.

As an example of the rapidly changing scene, statistics show that in 1860 there were 860,000 people in this country, more than sixty-five years of age, and three out of four of them were self-supporting and independent. Today we have 7,912,000 people in this country more than sixty-five years of age and three out of four are either dependent upon relatives or the government for their existence.

In 1860 two per cent of the people were sixty-five. Now six per cent of them are that old, and at the same rate of increase in forty years, twelve per cent of our population will be sixty-five years of age or older.

Unless we get hold of ourselves and rebuild our self-confidence in our ability to do for ourselves and not depend on somebody else or lean on the government, the same statistics warn us that within the next fifty years most of us will be fit subjects for confinement in padded cells.

Our complaint is not chronic. It is either a rash or we have been hypnotized. We are still able to look out for ourselves if we would only let loose and strike out. The Great Game Of Politics

The Buildup Overdone

WASHINGTON, Dec. 16.—

THE EFFORT to build up, through the monopoly investigation, Mr. Leon Henderson, Mr. Harry Hopkins' pet economist, and Mr. Isadore Lubin, another of the White House "wonder boy" circle, into immensely erudite and important fellows whose figures and theories must be accepted as authoritative has already begun to bog down pretty badly. It is likely to do so completely before the end.

ONE REASON is because neither of these individuals appears to have the age, the experience or the standing in the field of economics to justify any such exaggerated idea about him. Another is that the publicity is so plainly inspired by the Corcoran-Cohen-Jackson group, to which they adhere. At least it flows through the same journalistic channels which members of that group so consistently use to promulgate their plans.

IT IS regarded as part of the general strategy to build the monopoly investigation along the lines laid down by the President's advisers. The idea seems to be that by starting the investigation off in a benign instead of belligerent fashion and exhibiting the Messrs. Henderson and Lubin as extremely profound and authoritative fellows, when the time comes to really belt big business in the belly, both the Congressional members of the committee and the newspapers will have been so impressed by the great statistical wisdom of the New Deal economists that their statements will be accepted without question. Anyone who is deceived by the benevolent nature of the proceedings to date into believing that the original purpose of "belting big business" has been abandoned is just foolish.

HOWEVER, the "buildup" seems to have been a bit overdone. For one thing, reiteration that Mr. Henderson was the only man who predicted the depression of 1937 has gotten to be ridiculous. Mr. Henderson may have been the only member of the "wonder boy" group who made that prediction, but there were a good many men, both in the Administration and out, who certainly saw it coming—and said so. And while his colleagues of the "inner circle" may have known of the Henderson prophecy before the slump came, few others ever heard of it until afterward. For another, the New York Times a few days ago editorially characterized Mr. Henderson's reasoning before the committee as confused. Supporting this view, Dr. Fabian Franklin, in a public letter, goes further and declares "extraordinary fact that Leon Henderson should continue to act in a capacity which gives him the opportunity to mislead the public on vital issues of the gravest kind."

CONTINUING. Dr. Franklin points out that in 1935 the Research and Planning Division of the NRA, of which Mr. Henderson was then director, published a report which was "flagrantly erroneous." Concerning this report, the Times, on March 16, 1935, editorially said

Confessed Weekly In Philadelphia

PHILADELPHIA—Every day of every week someone walks into detective headquarters in Philadel-

phia and confesses a murder, according to Captain James Ryan. "Several people come in here every day of the week confessing murders," Ryan said. "But when you get down to proving the murder, they don't know anything about it. Sometimes people come in to confess the murder of persons down in Alabama or some distant place, for the purpose of getting back home. When they get back there you call up and find there was no such person murdered."

UNNECESSARY WASTE STRONGLY ATTACKED

(International News Service)
WASHINGTON, Pa., Dec. 16.—Closing sessions of the annual convention of the Pennsylvania State Grange today saw its members lash out in pleas for economy and elimination of "unnecessary waste" in government departments.

As an economy suggestion, the grange delegates passed a resolution in favor of decentralization of the reigns of government, and sharply criticized commonwealth authorities for the money spent for a new farm-show building at Harrisburg. In addition they criticized milk control inspection in the state and urged payment of taxes as a qualification for voting.

Committee reports, making criticisms and suggestions for improvement of the government took most of the delegates time this morning. One committee chairman reported: "The most important question must inevitably be that of economy in government. Economy can only come through decentralization of government as through eliminating unnecessary, harmful or wasteful branches or powers of government." The group announced itself opposed to compulsory milk control and once again favored abolishing the scheme of compulsory price fixing. They suggested that all the powers now invested in the milk control commission be transferred to the department of agriculture.

too early. He might be taken at his word by the 1940 convention.

In short, Guffey was indiscreet, premature. It's surprising in the case of so supposedly crafty a politician. New Dealers concede that he doubtless meant well. Yet they'd like to spank him.

The senator's outburst, indeed, has created as much a split in the Democratic ranks as the G.O.P.'s national committee created in its own alignment by putting ex-Senator Daniel O. Hastings of Delaware on its own managerial board—its executive sub-committee.

Personally I don't think Hastings is as blindly reactionary as is represented, but I seem to be in a minority of about one in thinking so.

Anyway, the liberal Republicans were simply horrified at Hastings' selection. And the Democrats were transported with joy at it. They calculated that it had split the G.O.P. wide open. It did look like it. But right on the heels of that development Senator Guffey sprang his third term ballyhoo, which promises to raise heck with Democratic solidarity. Conservative Democrats are outraged. New Deal Democrats admit that Guffey was frightfully injudicious. How he happened to go off at half-cock like that stumps them.

That a boom can be launched too soon is well recognized in politics. A 1940 Democratic boom for Vice President John N. Garner already has been cut loose in Texas. That's all right enough—for Garner can't be presidentially nominated in any event. He's too old and too conservative—too conservative even for moderate conservatives. The next Democratic candidate (Roosevelt excepted) must be a compromise, and "Texas Jack" isn't a compromise.

Secretary of State Cordell Hull would be a compromise, but he's too old. He's talked about, but he hasn't a boom in his favor. He won't be nominated either.

THE CLARK BOOM

Senator Bennett Champ Clark of Missouri, however, is backed by quite a boom. The result is that he'll be shot at from all directions during the next session of congress—by Republicans of course, and by Democratic rivals. Two years are quite awhile to be shot at without having some vulnerabilities discovered.

How about Alf M. Landon?

This is a joke, I say? Nevertheless, Alf Landon is Secretary Hull's right-hand man on our delegation to the Pan-American congress at Lima. It's a democratic (small "d") gathering.

It's a corking important meeting, moreover, with world conditions as they are.

And Alf, a Republican, is blamed conspicuous thereat.

Oh, well, he can't be nominated as a Democrat presidentially in this country. Still, he's traveling with a Democratic outfit.

Dog Breathes Through Tube In Windpipe

(International News Service)

BOSTON, Mass.—Peter, a Boston terrier, is perhaps the only dog in the world who breathes through a tube in his windpipe.

Inserting the pipe was believed the first surgical operation of its kind performed on a dog. It was done by Dr. C. L. Blakely at the Angell Animal hospital here.

Peter is the property of Louis B. Martin, of Newton Center. The night before the operation, the terrier tried to swallow a chicken bone, which became lodged in his throat.

The bone was removed by a veterinarian but a silver had punctured the larynx, causing an infection and threatening to strangle Peter as the trachea or windpipe was shut off by the inflammation.

Peter soon was able to breathe normally, thanks to a small silver tube, inserted beneath the larynx. The tube was similar to that used in the children's tracheotomy operations.

The physicians said the tube would be withdrawn after the swelling disappeared.

Hospital records disclosed no similar operation on a dog in its nearly quarter century of existence.

French Prelate To Get Highest War Decoration

(International News Service)

PARIS—France's highest award for valor in the field of battle—the Medaille Militaire—will be awarded next Armistice Day to Cardinal Gerlier, archbishop of Lyons.

It is not to a churchman that the medal will be awarded, however. Infantry Adjutant Pierre Gerlier, wounded in the great war and mentioned for conspicuous gallantry in army orders, will be the recipient.

Since the war Cardinal Gerlier has attempted to leave behind him his record as a soldier to become one of the most ardent French advocates of peace.

As bishop of Lourdes he inaugurated the famous mass pilgrimage

for ex-soldiers of all nations which was attended by thousands of former combatants, who knelt side by side to mingle their prayers for peace.

Hear Rev. McLean At 'Y' Yule Party

Close To 100 Join In Lobby Program; Musicians Entertain

Christmas carol singing by the audience, special accordion and piano numbers and an address appropriate to the holiday season were highlights of last night's annual Christmas "lobby party" of the Young Men's Christian Association. Close to 100 attended it.

The evening speaker, Rev. W. V. McLean, pastor of First M. E. church, impressed his audience as he traced the transformation of the Christmas tree from a pagan to a Christian symbol. "The Significance of Christmas" was his topic.

Rev. McLean spoke during the lobby exercises which followed activities in the gymnasium. The gym events, arranged by the "Y" staff and a group of Key Men's club members, were entertainment features. Throughout the evening the ping pong, billiard and other games were open to the public.

Howard Warnock was chairman of the formal program. He introduced the speaker.

He also introduced the guest musicians, Don Howard, accordionist, and Miss Dorothy Donahay, pianist. They favored the group with several numbers, and Miss Donahay played for the carol singing.

Refreshments were served at the close by a committee representing the Knights chapter of the Phalanx fraternity, with General Secretary R. L. Meermans assisting.

The entire "Y" staff co-operated in handling arrangements.

Italian Jews Must Turn Over Property

Special Institute Is Created To Take Official Charge Of Property

(International News Service) ROME, Dec. 15.—Italian Jews must turn over their properties to a special institute created for that purpose, it was decreed officially today.

In exchange, the owners will receive four per cent bonds, which it was presumed, will not be negotiable.

The decree, marking another major step in the Italian "aryanization" campaign, stated that Jewish-owned industries employing more than 100 persons will be managed by the state pending their sale.

Compensation will take the form of ordinary state bonds.

The decree was considered tantamount to a sweeping confiscation of Jewish property.

Film Stars Find Tourist Trade Is Taming France

(International News Service) PARIS.—The tourist trade is taming France's most famous native quarters.

Hollywood star Marlene Dietrich and the French picture star, Miss Ingrid Bergman, decided upon an adventurous evening in the slums of Paris recently.

They chose to explore the infamous Rue de Lappe, where, fable has it, one is constantly ducking flying knives and meeting with women-beating Apaches.

But the lovely ladies found none of this. Instead of knives and lurking apaches, they reported—neon signs advertising wide-open night spots from which blared American swing music—played by American negro orchestras, mostly.

State Is Richer By \$48,000 Today

(International News Service) HARRISBURG, Dec. 15.—Pennsylvania was richer by \$48,000 today—and the sum may run to \$95,000—and all because approximately 10,000 of its creditors failed to cash checks forwarded them over a period of years in payment of state accounts.

State Treasurer F. Clair Ross revealed that credit for the \$48,000 has been taken in several state funds as a result of escheat proceedings authorized by the 1935 session of the general assembly.

The checks were dated prior to June 1, 1931. All checks of the commonwealth are marked "this check must be presented for payment within 60 days from date" and automatically become void if replacement checks are not requested of the treasury department.

Reductions Made In W.P.A. Quotas

WPA forces in district 14, composed of Lawrence, Mercer, Beaver and Butler counties, are down to the quota established for December, according to a statement made from the WPA office today. "The quota is 12,900, as opposed to the peak quota of the year of 14,600."

A reduction of 1700 employees has been made in the district of which approximately 500 have been in Lawrence county. Whether or not there will be further reductions in January and February is unknown, it was said.

A New York scientist is said to have developed a treatment for cut flowers which preserves their natural form and color indefinitely.

A \$1,000 Smile!

You'd smile, too, if you had just won \$1,000 in a nation-wide puzzle and letter writing contest sponsored for boys by a boys' magazine. The lucky youth is Bob Nelson, 15, of Spokane, Wash., who will use the money for a college education.

Off to See Kaiser

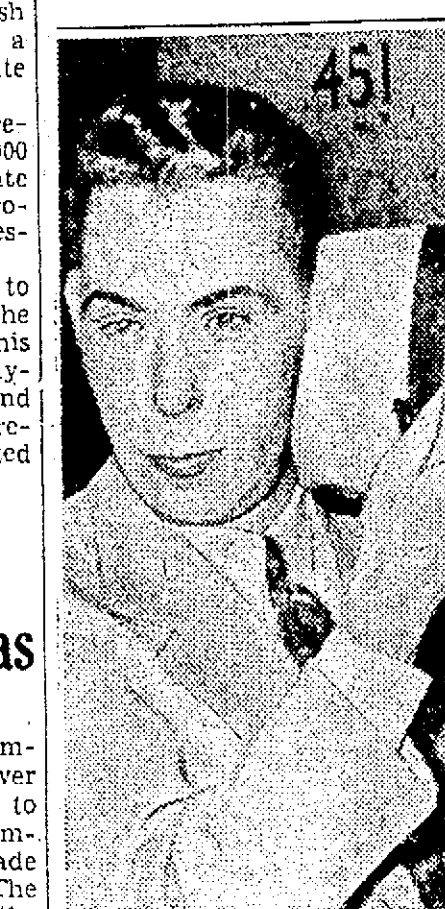

Dr. William C. Huebener, a Cincinnati, Ohio, heart specialist, is pictured as he sailed from New York to visit former Kaiser Wilhelm at Doorn, Netherlands. The physician refused to reveal the nature of his mission.

Cadet, 17, Suicide

With the head almost torn off by a shotgun charge, the body of 17-year-old William Scott was found at the family summer estate at Skateateles Lake, N. Y. Young Scott, million dollar heir, and cadet at Staunton (Va.) Military Academy, was despondent over illness and automobile wreck in which he suffered injuries day of suicide.

In McKesson Probe

John O. Jenkins is shown leaving the State Building, New York City, after questioning in the probe of the McKesson & Robbins drug firm. A brother-in-law of F. Donald Coster, head of the company, Jenkins was asked about accounts in the name of "John J. Jenkins" as authorities tried to trace \$18,000,000 in vanished assets.

Right, a diver is about to descend to ascertain extent of the damage. Above, the smashed sea wall. The vessel was repaired at Hamburg before making the homeward journey.

Boys Slay Wife-Beating Dads

Richard Beichert, 20 (left), was held in the county jail at Redwood City, Calif., on a charge of shooting and killing his father, William Beichert, for beating Mrs. Beichert. At the same time, 13-year-old Robert Russell (right) was jailed at Marion, Ark., on charge of killing his father, W. L. Russell, with a shotgun when the boy tried to protect his mother from a beating.

South Siders Acclaim Santa

Saint Nick Appears On Streets Much To Delight Of Army Of Children

Santa Claus' debut in the south side, Thursday, caused a temporary state of confusion and an unforeseen problem for many mothers.

As school classes were dismissed at noon, the energetic youngsters got a glimpse of Old Saint Nick, on the corner of East Loop and Pennsylvania avenues. That started the fun! What would happen if Anthony Eden, Shirley Temple, Clark Gable, Myrna Loy, Gary Cooper, Franchot Tone or any other celebrity were to walk along one of New Castle's streets? That's what happened.

The kiddies swarmed around the jolly old fellow like bees gathering around a honey-comb. For sometime, Santa was busier than an octopus listening to the shouting boys and girls who were over anxious to get in their orders. And they refused to leave until Santa learned what to deposit in the kiddies' stockings.

As for the mothers, they waited and waited but in vain. The youngsters had no time for dinner, what with Santa Claus around? After it was all over, Santa was a fatigued gent. The boys and girls were estimated to number several hundred. The scene was reproduced when school was dismissed for the day.

Two Killed By Dynamite Blast

Three Others Injured Near Laurel, Mass., While Blasting Trees

(International News Service) LAUREL, Mass., Dec. 15.—Three men, injured in a premature dynamite explosion in which two others were killed, remained in a critical condition in a Laurel hospital today.

The crew of five were blasting stumps in a field 11 miles from Laurel when Tom Byrd accidentally detonated eight sticks of the explosive. Searchers were unable to find any trace of his body.

Hillman Walters, 15, died later in the hospital and his father and a brother as well as another helper, were seriously hurt.

Way Is Clear For Former Spanish Royalty To Return

(International News Service) BURGOS, Spain, Dec. 16.—The way was clear today for the Spanish royal family to return to Spain and take possession of its former palaces, lands and other properties in insurgent territory.

This was accomplished through a decree issued by insurgent generalissimo Francisco Franco, ordering restoration of full citizenship and property rights to former King Alfonso XIII.

The measure, presaging possible return of Alfonso to the vacant Bourbon throne, was adopted by the insurgent council of ministers meeting under Franco's chairmanship.

A law passed by the Spanish Cortes seven years ago, stripping Alfonso of his citizenship and sen-

tencing him to "perpetual banishment," was declared void, as were a series of later measures depriving the ex-king of his private properties.

Orchestra Manager Weds Film Actress

(International News Service) CHICAGO, Dec. 16.—He thought she was too well to be standing behind the jewelry counter of a 10-cent store.

She thought he was far too nice to remain just a movie extra. And so today Arthur Glen, manager of a downtown hotel orchestra, and Armida, Mexican film actress, were off on a honeymoon, their three weeks romance culminated yesterday with an elopement to Valparaiso, Ind.

The two, hid their real identities as a joke when they were introduced and maintained the masquerade until almost the last.

Opposition To Neutrality Act Change Growing

Undercover Drive Is On In
Senate To Prevent Tinkering With Present
Law

BLOC WANTS
LAW AMENDED

By ARTHUR HACHTEN
International News Service Staff
Correspondent

WASHINGTON, Dec. 16.—An undercover drive was under way in senate circles today to head off any tinkering with the neutrality law at the next session of congress.

Argument was privately advanced by administration leaders on Capitol Hill that the international situations in Europe and the Far East were changing so rapidly that it would be unwise for the United States to revise its neutrality act at this time.

The law directs the president to impose embargoes upon shipments of munitions to all participants in a war when he finds that a war is in progress. It also prohibits shipment of arms to Spain, where a civil war is raging.

However, a bloc in the senate was preparing for a battle to amend the law, with a view to making it more mandatory upon the president. Leaders of this group, including Senator Nye (R) North Dakota, disclosed they were having difficulty in framing mandatory amendments.

Thoughts Differ

While it was generally agreed among senators that any reopening of the neutrality law would precipitate a long debate, a survey of senate sentiment disclosed three schools of thought on the issue.

One group favored amendments to the law to provide a formula for the president's actions in future situations abroad.

A second group insisted that the law in substantially its present form would safeguard the policy of non-alignment, non-interference and non-intervention historically followed by this country in the face of foreign wars.

The third group opposed any legislative restrictions upon what they described as the constitutional power of the president to conduct any negotiations with foreign powers he desires, provided all agreements or understandings are submitted to the senate for ratification.

It was toward the third group that sentiment of administration leaders was veering. Prominent Democrats in this group insisted that under the present law the United States would be in a position to meet any emergency that might arise.

There were forecasts among administration senators that President Roosevelt in his message to congress on January 4, would recommend flexibility in the neutrality legislation.

A prominent administration leader said that in the major capitals of the world no programs had been devised to meet any possible contingency, that overnight developments in the international checkerboard had forced all the leading powers to operate on a day-to-day basis.

Illinois Survey Shows Students' Speech Defects

(International News Service)

CHICAGO, Dec. 16.—One-fifth of all students coming out of Illinois high schools suffer from speech defects, a Northwestern University professor declared after a survey was completed here.

Dr. Raymond Carhart of the Department of Speech Re-education at the university and chairman of the Illinois Speech Correction Survey committee, which conducted the inquiry, said:

"The survey has revealed two things. Speech defects are quite prevalent among Illinois high school students, and comparatively little is being done to rehabilitate the speech of the handicapped.

"Voice and articulation defects are the principal disorders. The vocal problems include nasality, huskiness, hoarseness and insufficient voice.

"The articulation problems include stuttering, lisping, dialect, sound substitution and carelessness in enunciation.

"About one-third more defects were found among boys than among girls students."

Every accredited high school in Illinois received a questionnaire from the committee. More than eight hundred schools filled out the blanks in full.

SENIOR HIGH SCHOOL NEWS

(Material Gathered and Edited by Student Reporters)

HOME ECONOMICS

Again the Home Economic students are tempting the pupils of the Ne-Ca-Hi with the savory odors of their culinary arts. The advanced cooking class, under the direction of Miss Ruth Wallace, is baking bread, rolls, and Christmas cookies. The odor of this baking is present in all parts of the building and it keeps this reporter, and I am sure the remainder of the student body very hungry, especially before lunch period and almost equally so after lunch has been consumed. To smell the baking is tempting, but to look at the results causes one to wish that he could eat to his heart's content. However, that will not be his satisfaction as these cookies are made for the faculty.

To top the Home Economics department's Christmas activities is the Christmas tea to be held Tuesday, December twentieth in charge of which are Mary Budai and Sue Klamar. Judging from the preparations made by these girls, the tea will be a great success. Invitations for this event are made of colored paper being in the shape of angels with scrolls attached to their hands. Upon unwinding the scroll the invitation is discovered. Table decorations are also arranged. We, on the outside, look on with envy while those invited enjoy the efforts of the Home Economics advanced cooking class.

STUDENT COUNCIL

Student Council met Wednesday for the regular meeting with Vice-president Audrey Bridenbaugh in charge. Jean Dufford called the roll and the minutes were read by Virginia Fredericks.

Council's social committee reported that the school party will be given on January 12.

The class presidents were present at the meeting and discussion followed concerning the school ring. Miss Rhodes gave an interesting explanation of the ring and its future was probed by council.

MODERN LANGUAGE PARTY

Once again the modern language students made merry when they presented their annual Christmas party on Thursday evening in the senior high school. The event, sponsored by the modern language faculty, Miss Riffer, Miss Kelly, Miss Edmunds, Miss Miller and Miss Williams, has become a Christmas tradition and is anticipated by the entire school. The huge Christmas tree in the first floor hall was the gift of the Willis Roy Park association and furnished the atmosphere for the occasion.

After a few numbers by an orchestra, consisting of Bill Earl, Lewis Finch, Richard Barker, George Mitchell, Bill Alexander, Vance Dufford, and Mike Dachtel the group was invited into the auditorium for a program. Sherman Samuels as chairman, introduced the various numbers. These included a French

song by Lenore Christy, Roberta Elder and Louie Kerr. A magical act by Mr. Walter Biberick of Westminster College; a vocal number by Agnes Paikovich of the Spanish department and Charles Coulter and his quartet rendered various selection numbers. Following this, the group journeyed to the cafeteria where refreshments were served. Here, Mr. Duff led in singing Christmas carols, accompanied by Miss Williams.

After refreshments the party naturally vibrated toward the Christmas tree, where Santa Claus was waiting to reward all good children with candy. The remaining time was spent in dancing to the rhythm of the orchestra.

True to the spirit of the occasion a few special guests were invited to share the festive hours.

GIRLS' ATHLETIC CLUB

On Thursday and Friday of this week assembly groups I and II enjoyed an exhibition given by Girls' Athletic Club under the very able supervision of Miss Margaret Fisher. Jean Miller acted as the master of ceremonies, announcing the different numbers on the program. The first number was the good old fashioned square dance with Patricia Christianman, Jean Dunkerly, Tina Johns, Mollie Ginsberg, Martha Lawrence, Georgia Howland, Genevieve Wilk, Isobel Paul, Bettylou Montgomery, Marilyn Pearce, Genevieve Mundziak, Gloria Augustine, Edith Bodenforst, Marian Anderson, Amelia Augustine and Lillian Dicks taking part. The girls were dressed in old fashioned, yet comic costumes and proved very amusing.

Following the square dance was the dumb bell drill with Betty Ramey, Bernice Dellaverson, Audrey Bridenbaugh, Jean Dufford, Francis Chirano, Olga Lombard, Edith Cavill, Rose Sacco, Marjorie McNicholas, Ruth King, Dorothy Hayes and Dorothy Metzler doing some unique drills.

Jean Miller then told about the origin and history of the club and following this Helen Hayes, Marion Anderson, Dorothy Guynn and Elizabeth Leno played the drums, while Bettylou Montgomery, Amy Walford, Amelia Augustine and Dietta Cartwright tap danced in the "Drum and Tap Corps." The girls were dressed in the outstanding red and black band uniforms of our high school.

The "Country Festival" with all its authentic costumes and dances was next on the program. The first in this group of dances was the two Czechoslovakian dances, "Turn Around Me" and "The Gardener" by Georgia Howland, Dorothy Metzler, Marie Klamar and Beatrice Drumheller.

Next came the Rumanian "Festiva" dance with Isobel Paul and Gloria Augustine dressed in the gay colored authentic costumes of Rumania.

The Polish "Cracovia" dance fol-

lowed this with Frances Golls, Amy Walford, Dorothy Hayes and Marjorie McNicholas doing a very fast and peppy original Polish dance.

Italy was the last of the European countries to be represented in the Country Festival with Henrietta Colella, Dorothy Guynn, Jean Dunkerly and Joanna Hood dressed in gay Italian costumes doing a well known dance of Italy.

America next, was well represented with Marion Anderson, Amelia Augustine, Bettylou Montgomery, Marilyn Pearce, Genevieve Wilk, Martha Lawrence, Genevieve Mundziak, and Tina Johns dancing the ever popular "Virginia Reel."

It was then suggested by Jean Miller that a friendship circle be formed and all the countries united in dancing and left the stage in a friendly spirit.

The last two numbers were drills with Betty Ramey, Audrey Bridenbaugh, Henrietta Colella, Elizabeth Leno, Lois Southworth, Virginia Fredericks, Joanna Hood, Dorothy Conner, Sophie Boron, Marie Klamar, Betty Alexander, Doris Agnew, Jane Elliott, Dorothy Metzler, Francis Golls, and Bernice Dellaverson taking part in the Indian drill. The clubs were decorated with the Girls' Athletic Club colors of blue and white.

Some very difficult exercises made up the last number on the program which was the technique drill with Jean Dufford, Olga Lombard, Joanna Hood, Sophie Boron, Helen Hayes, Ruth King, Rose Sacco, Betty Jane Himebaugh, Betty Ramey, Virginia Fredericks, Dorothy Conner, Henrietta Colella, Audrey Bridenbaugh, Jane Elliott, Mollie Ginsberg, Patricia Christianman, Lillian Dicks, Frances Golls, Lois Southworth, Betty Alexander, Doris Agnew, Elizabeth Leno, Jean Dunkerly and Bernice Dellaverson taking part.

In the last two exercises the girls wore the club's regular uniform of blue suits and white shoes.

All the numbers were accompanied by Miss Fisher at the piano and the square dance and the American dance by Jack Gaston on his violin.

JUNIOR HI-Y

The meeting of the Junior Hi-Y was held Tuesday, December 13 at the Y. M. C. A. President Francis Kennedy opened the meeting and John Harlan led the club in devotionals. The old and new business was then taken up and discussed and a party was arranged for the next meeting. The club decided to pack one large basket to be given to some needy family. Max Lukart then gave a report on the Older Boys Conference. The meeting was then closed with a friendship circle.

GERMAN CLUB

The German Club held its regular meeting on Wednesday in Room 118. After the business meeting, the president, Wilbur Sloan introduced the chairman for the day, Emma Schuller.

The program was arranged around the theme of "Christmas Customs of All Lands." The representations were Germany, Lewis Finch; Czechoslovakia, Miriam Shaffer; Switzerland, Eleanor Emery; Holland, Bob Green; France, Ralph Turner; Belgium, Willard Tanne; England, Margaret Ussell.

The descriptions were interspersed

with German Christmas songs: "O Tannenbaum," "O du froeliche," and "Ehre Sei Gott in der Hoeh." The final number was the famous carol, "Stille Nacht." Jean Wright presided at the piano and Charles Coulter accompanied the songs with the baritone horn.

THE WINNAHS

At the Senatus Romanus party last week a number of worthy prizes were awarded. In the Chinese checker games Miss Rogers, Warren White, Helen L. Singer, Maxine Templeton and Helene Edgar came out on top while Bernard Hook, Maxine Gilliland, Marian Hildebrand, Barbara Matthews and Jane Walls were awarded the "booby" prize.

The group was then divided into two teams, Sam Davy's and Helene Edgar's. Sam's team won the relay candle race and the back-and-front race while Helene's team won the matchbox race.

The individual balloon race was won by Sam Davy. Ed. L. Fortney won the vacant chair game and Warren White was awarded the "booby" prize for "building the Christmas fence."

DOBOFS PARTY

On Wednesday evening the Dobofs were royally entertained by Miss Westlake and Miss Sines. A committee composed of Sam Davy, chairman; Miriam Brown, Martha Lawrence, Jim Johnson, and Barbara Parsons arranged the games. To start off a "Guess What Stars" game was played. In rapid succession a relay candle race, balloon race and necktie race were conducted. A Christmas stocking word game was then enjoyed. The peak of the evening arrived at 10:15 when a delicious buffet lunch was served.

Barbara Parsons, Carol Henderson, and Jim Johnson carried off prizes. It is interesting to note that while members of the staff were decorating the library with mistletoe and other Christmas greens, a large percentage of the pupils did not recognize the mistletoe or its value to budding romances.

The Girl Reserves held their regular meeting Monday evening in the Y. W. C. A. President Jane Haven opened the meeting and the girls then went to interest groups. A short cabinet meeting was held before the regular meeting.

Books Of First

Given To Library

Story Of First Circulating Library In City Is Quite Interesting

Among the gifts to the public library this past month was an old book presented by Alexander McCready of New Wilmington. This old book, the second volume of Homer's Iliad, was once the property of the first circulating library of this city.

A history of the first library here is quite interesting. George Pearson, Sr., son of John and Hannah Blunston Pearson, was one of the instigators of the first library. He and a group of five friends would buy books and circulate them among themselves until each book returned to its owner.

From this start grew the New Castle Library, which existed until about 1855. This book, presented to the present library, was the property of this original library, and carries an inscription to this effect in the front.

Another book, which turned out to be the first volume of Homer's Iliad, was also the property of the first library, was presented to the local library some time ago by an anonymous giver.

Both of these books, one of which has at one time or other been rescued from a fire, are being placed on display in the display case in the main hall today.

And The Care
Of Your Children

(Copyright, 1938, King Features Syndicate, Inc.)

In talking about healthy, happy, intelligent children, I often think how necessary it is to go back beyond the birth of the child to the parents—their health and their habits.

It may seem cold-blooded, but I might even say to the young people, "When you marry, pick someone who will make a proper mother or a proper father for your children. It doesn't hurt to look at your future-in-laws, just to see what your prospective partner may look like in after years.

I know heredity isn't everything, but, after all, a child is a combination of the life transmitted to him by his father and his mother.

Most of the old-time country doctors who have treated three or four generations of one family will say, "Blood will tell." In fact, we can often foretell the result and the course of an illness because we know the family.

I will always remember an incident that happened when I was a medical student, and which convinced me of the truth of this.

I was home for the holidays, and had gone out with my father to see one of his old patients. (My father was a country doctor in the middle-eastern part of Ontario for 50 years.)

The man we went to see had pneumonia. He seemed to be getting along pretty well, but Dad was pessimistic. Next day we went out again, and again I thought the man was more than holding his own. My father just shook his head and said, "He won't live the night."

I was young and enthusiastic, and I didn't agree with my father. I let him see that I didn't. Right away he suggested that I take the case; that he would leave the man in my hands. I thought it was a great chance to show the old generation of physicians how much they were teaching us in the colleges then, so I jumped at the chance.

Just to make sure that I was taking every precaution I called in another doctor from nearby and I stayed right with the sick man. He

seemed to be doing fine, then his heart began to give out and at four in the morning he died.

Of course, I was quite crestfallen and very unhappy about it all, but my father just patted my shoulder. When I asked him how he knew the man would die in the night, he replied, "I know the stock. I knew what his heart could stand."

Ever since then I have had a great deal of respect for experience. Older practitioners who have practiced for years in the same community with the same family get to know the types. So when children are born they aren't surprised if some of them are stolid, some are bright, some are stupid. You get to know pretty well the ones who will kick over the traces when they grow up.

The family physician gets to know the blood diseases in the family, and we know whether they are cured or not, so that often we give some protection to the second and third generation from the results of these.

Naturally a doctor is like a priest. He never thinks of telling what he may know about the individual. But sometimes we can be of service in advising whether a marriage should take place or not—that is, if we are asked.

W.P.A. Rolls In Pennsylvania
Being Reduced On Largest Scale

By ARTHUR C. WIMER
Special Washington Correspondent
New Castle News

WASHINGTON, D. C., Dec. 16.—WPA rolls were whittled down more in Pennsylvania than any other state of the country during the week ended December 10, WPA Administrator Hopkins reports.

WPA employees in the Keystone state numbered 282,591 on December 3. By December 10 they had been cut to 275,415. This represented a reduction of 7,176 workers, or 2.5 per cent. In the country at large such rolls were reduced only about one per cent in the same period.

In spite of this curtailment, however, the number of WPA workers on December 10 was greater in Pennsylvania than any other state. Ohio came second with 268,347.

Babson Suggests Plan To Aid United States In South America

By ROGER W. BABSON

(Copyright, 1938—Publishers Fiscal Bureau)

KNOXVILLE, Tenn., Dec. 16.—The pow-wow down in Lima, Peru is a good thing. Leaders of the various Pan-American nations should know each other. Such meetings, however, compare with the German "get-acquainted" methods in South America as a Ladies' Auxiliary tea compares with a C. I. O. strike meeting. The truth is that the Babson Fascist penetration of Latin-America is far more effective than our easy-going American methods.

Every traveler who returns from South America has fresh illustrations of growing Nazi influence. Despite the Monroe Doctrine, the agents of Hitler and Mussolini are running circles around us. Outright barter, blocked marks, public subsidies and price-cutting are just a few of the competitive handicaps our salesmen have to hurdle. The huge gains in trade which Hitler's clever business experts have chalked up are almost unbelievable—a 500 per cent increase in Central American alone in the last five years!

Hitlerizing Latin America
It is no secret that the United States, of all nations, is the most hated by the Berlin-Rome-Tokio axis. Five years ago, 3,000 miles of ocean separated us from our "enemies"; five years from now only the width of the Panama Canal may lie between us. While the Fascists would not openly dare to build a naval air base in this hemisphere, in reality they are doing something far more dangerous: They are cutting us out economically with the Latin-Americans. They are doing it by a clever program of penetration and propaganda. They are bombarding the continent with Fascist broadcasts 24 hours a day. They control and color the news services.

Many of the newspapers are German-owned—15 in Brazil alone. There are 1,400 German schools in Brazil—all run on straight Nazi lines. They have about 40 landing fields in the same country. Their air-lanes have brought Rio de Janeiro and Buenos Aires nearer Berlin than New York. Italian airmen train South American aviators. On the eve of the Lima conference, Japan completed a deal with Peru to buy 3,000 tons of cotton yearly in exchange for the lifting of Peruvian restrictions on Japanese textiles. A Lima-Tokio telephone service will soon be installed. Through government-controlled trade, Germany and Japan sell manufactured goods in

South America and often take their pay in oil or mining concessions.

"Hell" In Panama

The basic reason for Fascist success in penetrating South America, however, is their immigration. Buenos Aires, for instance, is the second largest Italian city in the world. (New York is first.) The Japs are thick all along the west coast, while the Germans are the most numerous and influential foreigners on the South American continent. These Germans are loyal to Hitler. They rag the Jews. They use the same strong-arm methods in snaring trade as Der Fuehrer used in snatching Austria. The Nazi slogans and tub-thumping organizations have all been carted across the ocean. You only have to go as far south as Panama to hear marching bands shout "Heil!"

How can we hold our own? First, our brand new navy will make a big impression. Herr Hitler knows the language of guns. So do all the little dictators who control the Latin American "republics". Second, our reciprocal trade agreements are helping even though they are not so effective as Germany's system of blocked marks and government barter. (Blocked marks can be used only in buying German-made goods.) Third, the new attitude of the Washington government—such as naming commercial steamships after Latin nations—will help. In addition there are other things we can do that are not being done.

Teach More Spanish

We can feature South America in our papers and schools. Our dailies and our text-books are filled with a lot of nonsense about Europe and scarcely anything about South America. We can teach more Spanish in our schools in place of French, German and Latin. Nothing helps to create better feeling than to be able to speak another man's language. We can send high-grade representatives to the south. Many a sharp deal has been pulled down there by unscrupulous "Yankees". We can sell our best-quality products in South America. I am told that we have used it as a dumping ground for shoddy and second-hand machinery.

Finally, we can match Japanese, German and Italian immigration with American immigration. We have 9,000,000 jobless—many of them driven out of the old "Dust Bowl". They cost Uncle Sam an average of \$500 each per year for welfare. Why not select some of the most ambitious of the unemployed and give them a year's relief check in advance as their stake to a new start in such countries as Bolivia, Argentina and Brazil? These nations need more people of the American pioneer type.

Create a New Frontier
At the same time we need a new frontier. Our unemployment prob-

lem and the filling up of our west are closely related. Recently we spent millions in trying to create a new frontier for the jobless up near the Arctic Circle in Alaska. Why not send some of them to countries whose climate is as temperate as California's and whose fields are as fertile as Iowa's?

Bolivia, third largest South American nation, is actually soliciting colonists. Her people are so busy mining that they have no time to raise their food. I hear that she is offering 2,500 acres to every immigrant who will agree to farm. Additional land can be had for 2½ cents per acre! By sending emigrants to Bolivia, we would reduce our jobless, cut our relief costs and launch an unfortunate human beings on a new life. At the same time, we would throw up a counter-buffet to Nazi penetration on this crucial continent. I hope Washington will make the most of this opportunity!

Frenchmen Don't Stand For Their National Anthem

(International News Service)

PARIS, Dec. 16.—When Mayor LaGuardia ruled that it isn't necessary to stand when the Star Spangled Banner is played, he had all Frenchmen puzzled.

No Frenchman or woman would dream of standing if he or she were sitting; neither would they dream of interrupting their normal course of existence if a band played the "Marseillaise" beside them.

"To us the national anthem denotes freedom," a Frenchman explained to International News Service.

"By freedom we mean freedom from all the conventions of standing, sitting or kneeling. It's our song. We love it but we don't worship it."

In the case of the commonwealth against John Haley, Jr., charged with assault and battery, a motion for a continuance was granted. Both sides asked for the continuance.

County Commissioners report that they have settled another of the Hillville damage cases that of Vincenzo Comasso some of whose land was taken and house removed.

The case of Frank Mazzone charged with the murder of Mike Mihl, covich at Crescentdale, is the only one for consideration of the jury which has been called for next week. It is probable that the jurors will all be retained until the jury is selected, and that those not chosen will be immediately discharged. The process of selecting a jury in a murder case is rather tedious, each juror called being questioned as to his knowledge of the case and views on capital punishment.

Letters of administration in the estate of the late Mary Musko of Ellport, have been granted by Register and Recorder Orville Potter, to a woman by the name as that of the decedent, Mary Musko.

The WPA project of writing up delinquent tax lists, which has been in progress in the corridor of the

court house, during a greater part of a year, has been completed for the present. The books have been written up to and including 1935, and a part of 1936. It is the intention to try to get another project through or completing them through 1936-37 and 8, but this will probably not be taken up until next February. The work done by the WPA so far must all be checked by the county controller, before it can be certified to the county commissioners and treasurer. This will require considerable time. The project, when completed, is designed to make available in the county treasurer's office, a statement of delinquent taxes for every individual in the county. It will shorten the work of looking up such taxes by about two thirds.

An alias subpoena has been granted in the divorce case of Sadie V. Murphy against Lester Murphy. The sheriff was unable to find the respondent on the first subpoena. The new one is returnable on the first Monday of February.

Expense account of the treasurer of the Democratic county committee has not yet been filed at the county commissioners office, unless it has been done since this was written. The time in which expense accounts are supposed to be filed, expired last week.

In the case of the First National Bank of Ellwood City by receiver against John Gaub, Jr., a petition to stay an execution has been presented. The case is one in which Gaub had borrowed \$10,300 from the bank on four pieces of property. Three were sold to Henry Vaughn for \$9,200, he to assume taxes. The execution which has been stayed was on the Gaub property at 630 Park avenue. It is stated that arrangements have been made whereby the claim can be settled.

Inventor Claims He Has Perfected Fool-Proof Lock

(International News Service)
HAMMOND, Ind.—No living man can pick a new lock invented by Leo E. Deutsch, of Hammond, according to the inventor, who claims that his device will revolutionize the lock and key industry.

The design of these mechanisms leave the selection of any one of 65,000 combinations to the lock owner. Deutsch said. "He can set his own combination in the key to match that of the lock. The economy to the landlord with changes of occupancy to the employed changing transferring or shifting help to incoming political administrations is readily apparent. For the combination of all locks can be changed in less than five minutes without requiring the aid of a mechanic or expert."

The automobile owner will be interested because if he happens to lose his set of keys or finds his car locked he can borrow keys from another motorist, set the combination of the key to his lock, open the door and then change the combination back to fit the original owner's automobile.

Deutsch said it required five years to perfect his invention on which he has obtained patent rights in the United States and in more than a score of foreign countries. Backed by a number of prominent Northern Indiana business men, Deutsch has incorporated a company to begin manufacture of the devices within the next month.

KALAMA, Wash., Dec. 6.—If Armistead Carter is successful in his experiments, the familiar yellow singing canary will be replaced by a red, white and blue bird. Says Parole Has Become A Racket In Some States

(International News Service)
LOS ANGELES, Cal.—Asserting that "parole has become a racket" in some states, Mab Copland Line-man, attorney and chairman of crime prevention for the Los Angeles County Federation of Women's clubs, urged clubwomen never to ask for parole of a convict until they have made thorough investigation.

Mrs. Line-man stated that "it is the habitual and hardened criminal who is receiving parole."

"Criminal forces with money and political pull to back them, can actually dictate to parole boards and secure the parole of habitual criminals who are a menace to society," she charged.

Giant Religious Statue To Be Built In France

(International News Service)
PARIS—The famous statue of Christ in the Andes which until now was the largest religious statue in the world, will lose its distinction to the statue of Notre Dame du Sacre Coeur, which is to be erected at the little village of Mas-Riller in the vicinity of Lyons.

The Notre Dame statue, constructed by the well-known sculptor George Serraz, will measure 110 feet in height, whereas the Christ statue is only 97 feet.

The total weight of the new statue is estimated at 1,500 tons, one foot alone weighing about 22 tons.

The massive sculpture will dominate the valley of the Rhone, overlooking a beautiful panorama of southeastern France.

Hasn't Slept For Six Years

Such Is Claim Of New England Man; Started Out For Record

UNABLE TO GET ANY SLEEP NOW

(International News Service)
ORLEANS, Mass., Dec. 16.—The man who never sleeps—Isaac Wilbur Small, 69 year old odd-jobs man—was still going strong today in his sixth year of wakefulness.

"Bill Ike" as he is familiarly known and the "sand man" have been having an argument for night on 40 years. And they have been total strangers since October 23, 1933.

"I'd like to make up with Morpheus, now," said Bill Ike today, "but I calculate it's no go. The nights are pretty long and I'd like to sleep a bit just for something to do. But I can't, and I guess it's my own fault. I started going without sleep for the fun of it a long time ago and now it's become a habit. I close my eyes now, once in a while, but only to rest 'em. I don't really sleep."

Bill-Ike is just about resigned to the belief that he'll keep on staying awake until his days are ended.

Health Not Hurt? Going without sleep apparently hasn't hurt his health, because he looks as sound as a dollar and claims to be "fit as a fiddle." He still turns in a hard day's work, hiking several miles to and from the post-office daily, chopping wood and lugging water from the well. He does gardening for a living in the summer.

Bill-Ike shares a century-old house in the woods outside this Cape Cod community with his brother, Fred, 64. Unlike his sleepless brother, Fred "rounds the ear" eight or nine hours nightly. Both are bachelors. The older brother first discovered his capacity to go without sleep when he was a youth working in the cranberry bogs. He worked day and night for three months and during that time required only an hour's sleep before breakfast.

Tried For Record

Bill-Ike decided to try for the insomnia record in 1933 after he read in a magazine that "nobody can go 80 days without sleep." To prove his point, he went sleepless for 83 consecutive days and nights.

The following year he surpassed his own record, remaining awake 147 days. He bettered his performance each year until 1933 when he finished his first full year of going without sleep and resolved to keep on going.

Last year Bill gained 38 pounds in weight but attributes this to a grapefruit diet.

Nobody has ever "checked up" on Bill-Ike to prove he never goes without sleep, but neighbors have reported passing his house at all hours of the night and early morning and seeing a light on and Bill-Ike sitting down by the stove reading, or walking around.

Pittsburgh Has Big School Levy

**Blame Teacher's Tenure Act
And Other Legislation
For Increase In
Millage**

**MARRIED ONES
KEEP COST UP**

(International News Service)
PITTSBURGH, Dec. 16.—Sections of the state teachers' tenure act which provide that a teacher may marry without resigning and slumping property valuations were blamed for the highest school levy faced by Pittsburgh taxpayers in 27 years of the board of public education.

The board set the 1939 rate at 12 and one-quarter mills, a boost of one mill over the present rate, and fixed the budget for the coming year at \$15,177,353.

The teachers tenure act and other state legislation, the finance committee pointed out, has saddled expenses on the board from which there is no escape.

"Up to the present," the committee stated, "one hundred and forty-five elementary women teachers and 22 secondary teachers have married and continued service. Had these teachers married and resigned and had their places been filled by new teachers on the beginning steps of the salary schedule, there would have been a saving in the cost of teachers' salaries at this time of over \$120,000."

Slumping property valuations also were blamed for the tax increase. Present taxable valuation is placed at \$1,096,000,000, compared with \$1,212,000,000 five years ago.

DAILY DOZEN

(From the Medical Society of the State of Pennsylvania)

Heart disease claims 25 per cent of all the deaths in the United States.

Cancer is responsible for about half of this number.

Pneumonia, nephritis and accidental deaths are about equal.

Tuberculosis is steadily losing ground as a cause of death.

These are mentioned in the order of their importance.

Then comes congenital malformations and infants' diseases.

Followed by diabetes and influenza.

Such generalities do not hold for individual communities.

Tuberculosis leads even heart disease in Arizona.

Automobile deaths lead in the Rocky Mountain region.

The average length of life is still extending.

Almost 61 years—higher than in most countries of the world.

German Naval Building Fails To Reach Limits

Official Naval Year Book Shows Germany Trying To Keep Pace With Britain

THREE NATIONS NOW HOLD LEAD

(International News Service)
BERLIN, Dec. 16.—Publication of the official naval year book revealed today that Nazi Germany is attempting to keep pace with British naval building through acceleration of construction.

Nevertheless, the German naval building program for 1939 is far below the allotted 35 per cent limit in relation to the British naval establishment.

The year book charged that Great Britain, the United States and France are building the fastest and most powerful naval units, in comparison to which naval construction by Italy, Germany and Japan is "insignificant."

The newspaper Boersen Zeitung, organ of the German defense ministry, commenting on the year book's figures, declared that not the totalitarian, but the Democratic countries are "responsible for the mad-dening naval race."

The book shows that the Reich is building its third 35,000-ton battle-

ship and that the first two are rapidly nearing completion. The Reich also is constructing two 26,000-ton battleships.

By speeding up its construction pace, the Reich also is undoubtedly seeking to match the increased tonnage of Soviet Russia, which is now revealed for the first time.

The official year book claims that Russia is creating a powerful navy through construction of three battleships of 35,000 or 40,000 tons as well as three airplane carriers, six heavy cruisers, and numerous destroyers and submarines.

It also claims that the Russian submarine fleet is the most powerful in Europe, consisting of 160 craft totaling 81,000 tons.

The Germans announced that they are building two more light cruisers of 7,000 tons each, making a total of six light cruisers plus sixteen which are planned.

The building program also provided for eight more destroyers bringing the destroyer flotilla to a total of thirty units. The number of smaller destroyers, called torpedo boats, was increased by twelve.

The entire submarine fleet will total seventy-one units including twenty-eight which are under construction or planned.

Mr. Sherman is now rated as machinist mate first class. He has qualified for advancement to rating as machinist. Secretary of Navy Swanson has approved recommendation by the naval examining board that the New Castle man be placed on waiting list of those eligible for promotion.

Sherman In Line For Promotion

WASHINGTON, D. C., Dec. 16.—Ralph I. Sherman of New Castle, a navy man attached to the "U. S. S. Monaghan," has qualified for a promotion and has been placed on the waiting list, the Navy Department reports.

Mr. Sherman is now rated as machinist mate first class. He has qualified for advancement to rating as machinist. Secretary of Navy Swanson has approved recommendation by the naval examining board that the New Castle man be placed on waiting list of those eligible for promotion.

Snyder Gives His Version

Testifies In Own Defense On Attempted Murder Charge In California

FORMER WIFE, AND DAUGHTER, LISTEN

(International News Service)
LOS ANGELES, Dec. 16.—The biggest bit of gambling the Gimp has ever done was a thing of the past today, but the pay off won't be known for a few more days.

The Gimp, legally known as Martin Snyder, staked his life yesterday in superior court where he is on trial on charges of attempting to murder Myrl Alderman, present husband of Ruth Etting, the radio songstress and former wife of the Gimp.

His big play was his version of how he came to shoot Alderman in Hollywood last October 15 a version that differed strongly from that given by Alderman Miss Etting and Snyder's daughter by a previous marriage.

In his own peculiar jargon, the Gimp talked, first in direct examination and then in cross-examination, until the crowded courtroom was left flabbergasted.

He raved along, touching on gambling sprees, his marital affairs with the little lady, drinking bouts, his Chicago childhood, how his "home was wrecked," dames, gangsters, politicians coppers and all.

And when he was through he limped from the stand and sneezed. "My mother—God rest her soul—said you only sneeze when you have been telling the truth," he said, "and I have been telling the truth."

With Alderman, who married Miss Etting in a surprise elopement to Las Vegas, Nev., Wednesday, Miss Etting and Edith Snyder, the Gimp's daughter, listening intently, the Gimp gave what he claimed was the true account of the shooting in which Alderman was wounded in the abdomen.

Make Haste To Approve Project For Harrisburg

Construction Of New State Liquor Control Headquarters Must Start By First Of Year

(International News Service) HARRISBURG, Dec. 16.—Striving to undertake construction before January 1, state officials today moved swiftly towards final approval of the proposed \$1,000,000 liquor control building, buttressed by the Public Works Administration's \$544,500 grant.

Haste was the primary need today as construction must start by the end of the year for the grant to be allowable.

Maj. G. Douglas Andrews, state P.W.A. administrator, in announcing the grant, asked the State Liquor Control Board and other state officials to reach an immediate decision on the offer.

Meanwhile, the State Art Commission, which previously opposed the proposed location of the structure, withdrew its opposition and gave tentative approval to the plans.

Another effort was to be made to reach Gov. George H. Earl, vacationing in France.

In addition, the Liquor Control Board decided to lay the proposal before associates of Gov. Elect Arthur H. James in an effort to sound out the attitude of the incoming Republican administration on the subject.

Great Many Workers Are Deserting CIO And Flocking Back To A. F. of L.

(International News Service) CHICAGO, Dec. 16.—Declaring that "disillusioned workers" are flocking back to the American Federation of Labor, President William Green of the A. F. of L., Thursday declared that "the C.I.O. is doomed."

Green, here to address the Economic club, cited "dictatorship in labor" by John L. Lewis and other C.I.O. leaders, and said:

"The C.I.O. is doomed, and the leaders are beginning to realize it. If only C.I.O. members will realize it first, they will return to A. F. of L. leadership before they are committed to things they don't want by their radical leaders."

Let's not argue about what the election meant. It's enough to know it wasn't a mandate to monkey with the Constitution.

Van Zeeland Enjoys a Joke

Paul van Zeeland (left), former premier of Belgium, spoke at the Economic Club of New York on the topic of "The European Situation," urged democracies to reach economic accords with dictator nations. Van Zeeland found time to enjoy a joke with Owen D. Young, General Electric chairman, shown as they met at the dinner. (Central Press)

The weakness of democracy is that men wise enough to save the nation are seldom popular enough to get elected.

Correct this sentence: "I gave Jane a fur piece and she gave me a handkerchief," said the lady, "but the sentiment is all that matters."

Says Homes Of Future Will Be Made Of Plastic

(International News Service) BOSTON — Homes, automobiles and appliances of the future will be made of synthetic plastics and resins, William M. Rand, chemical company executive, predicted to Boston University students in a lecture here.

"In the next few years we shall see a greater use of plastics that will result in the lighter and faster modes of transportation as well as in homes and buildings erected from synthetic plastics and resins," declared Rand.

Pointing out that some of science's major contributions have been made during periods of depression, Rand

expressed the hope that scientific discoveries and inventions may help solve some of the present-day economic problems.

The executive declared the chemical industry is still in its infancy and has only skimmed the surface of its capabilities. "America needs more and better chemists," concluded Rand.

Former Hero Of Morro Ship Fire Gets Long Term

George W. Rogers, 41, Radio Operator On Board Doomed Ship, Gets 12 To 20 Years

IS CONVICTED IN BOMBING PLOT

(International News Service) BAYONNE, N. J., Dec. 16.—George W. Rogers, 41, headline hero of the Morro Castle disaster, Thursday was sentenced to serve 12 to 20 years at hard labor in the state penitentiary, outgrowth of Rogers' alleged participation of a bombing outrage in Bayonne.

Rogers was alleged to have sent to Lieut. Vincent J. Doyle, his immediate superior on the Bayonne police force, an improvised time bomb which seriously injured Doyle when it discharged.

Rogers was commended for his services on the Morro Castle when that ill-fated vessel, a burning hulk, drifted into the New Jersey coast. Rogers, a radio operator abroad the ship, remained at his post until the last possible moment, flashing repeated calls for assistance.

collection of flowers is one of the staidest attractions that any city in the United States can boast. While other objects of interest have come and gone and others have risen to take their place, this collection has been a "main gate attraction" for the past 50 years. These glass flowers were produced for Harvard by Leopold and Rudolph Blaschka, European artists.

Second Big Attraction University City's second "big" attraction is the large white house built by Major Henry Vassall in 1759 and later made famous by Longfellow.

Tourist guides reveal nine out of ten sightseers desire to see these two show spots. The city's third "big" attraction is Mt. Auburn Cemetery. Here the great of Cambridge's past lie buried. Guides state tourists wish to sight the graves of Longfellow, Edward Everett, Sumner, Elliot, Agassiz and others who made 19th century Cambridge one of the greatest intellectual centers of the world.

Clemency For Mercer County Slayer Seen

State Pardon Board Will Not Oppose Commutation Of Death Sentence For Williams

(International News Service) HARRISBURG, Dec. 16.—Members of the state pardon board indicated Thursday they were inclined to grant clemency to Edgar E. Williams, 61, of Greenville, under sentence to die in the electric chair January 8. Edwin C. Moon, district attorney of Mercer county, told the board he would not oppose commutation of the death sentence.

Williams was convicted of shooting Nick Floros, Greenville taproom proprietor on February 18, 1938. It was a two-gun slaying.

During the argument before the board, Roger B. Johnson, counsel for Williams, declared that important evidence had not been presented at the trial. He informed the board that Williams had been intoxicated for several days before he went into Floros' taproom brandishing two guns.

Habitual Drunkard When the case was tried, Johnson said, the testimony was only to the effect that Williams was intoxicated. Secretary of Internal Affairs Thomas A. Logue inquired of Moon whether under those circumstances he did not feel that it was the board's duty to grant a commutation.

"We are not going to oppose commutation," the district attorney replied. "The prosecutor also informed the board that he was convinced that Williams was a drunkard."

MICA FROM CLAY

CAMBRIDGE, Mass.—Common clay, one of the most common substances known to man, provides the base for artificial manufacture of mica, relatively rare mineral. Mica is highly useful because of its transparency and resistance to heat and fire. Formerly, it was obtainable only from natural deposits in rocks.

Shooting Victim Battles For Life

Mrs. Rose Hardman, Shot By Husband, Remains In Critical Condition

MAY HAVE CHANCE TO SURVIVE NOW

(International News Service)
 BEAVER FALLS, Dec. 16.—Mrs. Rose Hardman, 47, critically wounded in the head when her husband, Robert, 59, a WPA worker, ran amuck and shot four persons before committing suicide, today battled for her life against great odds.

In a daze ever since her admittance to the Providence hospital at Beaver Falls, physicians reported today that her condition "was still very poor, but she's holding her own."

"She seems to be conscious at times," the physicians said, and then suddenly lapses back into unconsciousness.

Attaches at the hospital indicated that Mrs. Hardman, the mother of eight children, would only be able to pull through in her struggle for her life on the slightest of possibilities, but the fact that she has been able to hold out for the past three days was taken as a hopeful sign.

The woman was shot through the head last Tuesday when her husband failed to effect a reconciliation with her and then wounded his daughter-in-law, Mrs. Dorothy Davis Hardman, 23; Chester Dickey, Jr., 24; and Raymond Fessell, 24, before jamming the end of his revolver down his own throat and pulling the trigger.

Station Attendant Battles Bandit In Attempted Holdup

(International News Service)
 PITTSBURGH, Dec. 16.—There was at least one bandit in Pittsburgh today who had nothing but headaches to show for an attempted robbery.

The thug walked into a service station late last night and pointed a gun at Lester Wynick, 19-year-old attendant.

Wynick responded immediately by hurling a hammer at the bandit, striking him on the head. Next, he raced across the room, grabbed the hammer and rapped the thug on the head with it.

A scuffle followed with the bandit firing several shots—believed to be blanks—at Wynick, then fleeing. Police immediately launched a check of hospital and physicians' offices to learn whether or not the thug stopped off for medical attention.

Lack Of Spelling Knowledge Causes Arrest Here Today

Lack of knowledge how to spell the word "wages" today cost Anthony Donnell, colored, his liberty and instead of spending Christmas in Connecticut he may spend it in jail.

He was arrested by Police-men Sigler and Reese in a local bank this morning.

It appears that Donnell, an employee of Dr. Robert Brown, local veterinarian, went to a local clothing store, where he purchased a new suit and overcoat. He tendered a check in payment. The clothier refused to cash the check.

Donnell said he would return and left the clothing. He entered a bank where an attaché, knowing him to be an employee of Dr. Brown, cashed the check. However, upon reading the check the attaché saw the word "wages" spelled "wadges."

His superiors were notified. They notified Chief of Police Ralph A. Criswell. Officers Sigler and Reese took the young man into custody. He said he cashed the check and intended to leave at noon for his home state, Connecticut.

He is being held in the city jail.

Quarantine For Glamor Girls?

Glenda Farrell Suggests Idea In Discussing Hollywood Situation

HAVE HARD TIME IN GETTING MAN

By MILTON HARKER

(Copyright, 1938, INS)

HOLLYWOOD, Dec. 16.—Muchly admired Glenda Farrell opined today it would be a swell idea if glamour girls were put in some sort of quarantine, away from well-meaning friends and relatives, the moment they meet a personable man.

"Otherwise those who want to get married—and there are very few girls here who don't want to get married soon or later—are going to continue to have a very heck of a time getting their man," the lovely Miss Farrell declared with a girlish tap of her little foot.

Glenda completely forgot her duties of picture making and being North Hollywood's first mayor as she waxed enthusiastic on a subject dear to the heart of every young lady in the screen colony.

"If no one could get near an actress while some man is trying to court her, maybe she and the man would have a better chance to find out how they feel towards each other," she explained. "You know what I mean—that the girls could be put in some sort of quarantine, away from all relatives and friends, until the issue is settled one way or the other."

"There seems to be so many well-meaning people in Hollywood, people who can say the darndest things when they see a girl with a man."

Just An Example
"Here's an example. You can be having luncheon or dinner with a nice man you've known only a short time—one who might like you, you know—and some nice lady will say something like this, supposing it to be me: 'My, Glenda, what a pretty

hat you have on,' and then she'll kind of half turn to the man and add, 'you know she has the cutest habit. She'll go down to the store to get a hat and then she'll send home a dozen or more and decide to keep them all, costing from \$45 to \$50 each.'

You can see the man doing some mathematical gymnastics and then after he gets it all added up he'll almost swallow a piece of bread whole.

"I've heard girls say things like this to other girls with a nice young man in tow. 'Why, what a lovely dress. I'll bet you didn't have to pay a cent over \$1,500 for it.' Now the dress might not have cost over \$75 or \$100 at the most, but men don't know anything about the cost of dresses."

"But a man—any man—can get awfully discouraged when he hears talk of \$45 and \$50 hats and \$1,500 dresses."

"About the only time a girl and a man are really safe from outside interference in this town are the first time they are together. Somehow or other, if they are together more than once, it's taken as a foregone conclusion they are on the verge of matrimony."

Seven Millions Still Available

State Has Good Sized Sum In Federal Funds For Highway Work

By ARTHUR C. WIMER

(Special Washington Correspondent, New Castle News)

WASHINGTON, D. C., Dec. 16.—Pennsylvania at the beginning of December had available a balance of \$7,171,533 in regularly appropriated and emergency relief Federal funds for new highway and grade crossing projects, the Bureau of Public Roads reports.

Of the regularly appropriated money, \$2,319,485 was for Federal-aid highways and \$4,069,212 was for grade crossing eliminations. The residue of \$282,547 was for secondary and feeder roads.

Of the emergency relief funds remaining from Pennsylvania appropriations, \$287,202 was for railroad grade crossings, and \$213,086 was for miscellaneous road projects.

Churches Will Not Pay For Paving

Council met Thursday in the city building and instructed the city legal department not to file liens for paving where thoroughfares were improved in front of churches and public schools. Council passed a resolution to such effect because officials of the institutions had formally requested exoneration.

It is likely that churches which did not ask for the exoneration will make the plea inasmuch as a council indicated that such would result in an exoneration of the paving assessments in view of the desire to treat one church the same as the other.

Don't Jay-Walk While Shopping'
—JONES.

Don't Turn Christmas Into Grief Day', Another Traffic Tip

"Don't turn Christmas into Grief Day," advised Traffic Commissioner Thomas Jones today who said that, with auto, pedestrian and street car traffic increasing, there is likelihood of an accident at any minute of the day or night. He addressed his advice chiefly to pedestrians.

"Do not cross at street intersections unless you have the green light," Jones warned. "If you cross in the middle of the street you are apt to be struck by an automobile, the driver of which is governed by traffic signals. It is far safer to walk a few yards distant to a proper crossing than to take a 'short cut' and occupy a hospital bed on Christmas day."

"Police in cruiser cars and on street duty will watch for motorists who disobey the law. There will be no leniency for speeders and reckless operators. The motorists will be able to find parking space. They should autoists park so far from the curb they will not interfere with street car transportation. Not everyone owns or drives an auto, hence some citizens must ride street cars. Their rights must be respected."

Girl Scouts Do Bit In Spreading Christmas Cheer

Senior Girl Scouts Of New Castle Are Proving Severs Useful Citizens

Countless American girls from fourteen to eighteen years old wait to find real chances to be useful; they are eager for constructive good times and help in mastering the problems of "growing up," according to Mrs. Lewis A. DeBols, of New York, executive secretary of the national program division of the Girl Scouts. "People who believe that 'teen age girls are interested only in having fun are making a great mistake," Mrs. DeBols said. "Senior Girl Scouts want to be useful citizens."

Here in New Castle this has been especially true this past month, when senior troops have cheerfully found time to lend clerical assistance at the Community Chest office, to assist during the Red Cross campaign and to fill envelopes and distribute posters for the Anti-Tuberculosis League. With holiday season, scout troops all over the city are offering their talents and services in more personal forms of service. Caroling in various sections and several institutions, and Christmas parties for younger troops will give pleasure to many. Baskets of food for those less fortunate, Christmas favors, scrap books for hospital wards, care of small children while mothers go shopping. Scouts individually as well as collectively are demanding recognition as responsible junior citizens of New Castle.

In other communities Girl Scouts have helped to prepare Braille books for the blind, by clipping articles for transcription learning the Braille alphabet, and typing transcribed articles. Local senior troops took special training in playground leadership to fit themselves to help with back-yard playgrounds, a community project designed to lower the death-toll of children killed when playing on the streets. Others help doctors in pre-school health surveys, or conduct day nurseries to help busy mothers.

COLLEGE PROFESSOR GETS AN APPOINTMENT
SLIPPERY ROCK, Pa., Dec. 16.—Dr. R. A. Waldron of the college faculty here, has been named associate editor of the Science Education Magazine, a national publication in the science field. During the Christmas holidays Dr. Waldron will conduct a tour of science students to Bermuda.

V. V. Johnston Is Rotary Speaker

Address On The Historical Background Of European Situation Of Interest

ELLWOOD CITY, Dec. 16.—Mr. V. V. Johnston gave an impressive address before the Rotary club last evening in the Presbyterian church upon the subject of the historical background of the European situation.

President Harold Burns introduced the speaker of the evening. Mr. Johnston illustrated his address with a graphic chart on which he indicated the characteristics of the great leading nations: United States, Great Britain, Germany, France, Russia, Italy, Japan. He stressed the point that modern nations accepted national sovereignty as a prime factor in nationhood, and would not be bound by any agreement or treaty in case of what appeared to be a national emergency, as, for instance, when Germany felt under compulsion to invade Belgium. The seven nations mentioned above rule the world.

"These nations today are divided into two classes: first, static, or nations which are satisfied with present conditions. Great Britain, United States, France and Russia; second, dynamic, those nations which are compelled by a combination of conditions to press for different conditions: Germany, Italy, Japan.

"The club had as special guests of the occasion: Major D. G. Van de Boe, Assistant Regional Scout Executive, Karl Green, Lawrence County Scout Executive, C. W. Carbeau, District Chairman, Elden Danner, District Scout Commissioner, Nelson Kennedy, Assistant Scout Master. Major Van de Boe gave a short address upon the subject of Scout Cubbing. The club voted to include Cubbing as a part of the Scout work of the Rotary Club, naming as the special committee: Jack Kempel, Bob Shearer, Bob Patten, Arnold Young.

Language Depts. Make Merry At School Building

Annual Christmas Party
Thursday Night At Senior High School

OVER HUNDRED
PUPILS ATTEND

Spanish, French and German language students of the New Castle senior high school got together in the school building last night and had a rip-roaring good time.

While their "native lands" are regarded each other with arched backs and claws only partially concealed, these young people of the Romance language departments had one of the jolliest, most delightful Christmas parties the hallways have ever echoed to. They had everything that goes to make a good time, and so it is no wonder. They had a program par excellence, a tasty lunch, good singing, a swing band—and Santa Claus.

The party started off at about 8 o'clock with the following program in the auditorium:

Samuels Presides
Welcome—Sherman Samuels, master of ceremonies.

French carol, "Cantique de Noel"—Roberta Elder, Louise Kerr and Lenore Christley, accompanied by Ruth Peterson.

Spanish numbers, "Aye, Aye, Aye" and "La Golondrina"—Agnes Palkovich, accompanied by Miss Elizabeth Williams.

German department presentation, "Silent Night" and "Joy to the World"—Brass quartet, Charles Coulter, director; Ralph Gaspare, Bob Doyle and Dave Cramer.

Of course, the big hit of the program was Mr. Elberich, professor of magic.

Magician—Preacher
This gentleman from Westminster is a continual surprise. He has as many sides as a pentagon and is equally talented in all. He is a preacher of the gospel, a teacher of German, and now—a Svengali who did impossible things on the stage last night. He has a bag of tricks which is really something to see—but seeing is not believing exactly.

After the program the crowd of 100 students and guests went to the cafeteria where Mrs. Rachel Taylor and her helpers served pie, ice cream, cocoa and nuts, and where everyone joined in pep singing pep as paprika, under the leadership of Robert A. Huff.

Then back to Minerva's hall where Santa Claus (Joe Paluszak) made his appearance at the beautiful tree. He distributed candy in a jolly manner, and the evening ended by dancing to music by Billy Earl and his orchestra.

Miss Dorothy Edmunds, Miss Ethel Kelley and Miss Mary Riffer, Romance language instructors, headed the committees in charge of the party.

Grittie Injured
While Repairing
Christmas Toys

While repairing toys for needy children in his home, Jack Grittie, R. F. D. No. 2, suffered the loss of two fingers of his left hand this morning shortly before 10 o'clock.

According to reports, Grittie's hand caught on a set of knives mounted on a rod. He is confined to the New Castle hospital.

A plow which has leaned against a tree on the Leffingwell farm near Exira, Iowa, more than 50 years ago, remains there today, firmly imbedded in the tree's trunk.

Intermediate Division Rallies
Tonight — Hi-Yers Hear
Prof. Biggs

A group of 110 Gra-Y club youths, representing five school clubs of the intermediate division, will gather in the Y. M. C. A. tonight to participate in a basketball tournament and to hear Rev. Frank Baldwin, former New Castle resident, who now occupies the pastorate of a New York state church. He is in the city for several days.

The basketball competition, between the Ben Franklin, Lincoln-Garfield, Croton, Thaddeus Stevens and Neshannock township school clubs, opens at six.

At a rally last night, held in the second floor banquet hall, a throng of 80 Hi-Y youths, representing many clubs, heard Prof. Wallace R. Biggs describe his bicycle tour of the British Isles. Motion pictures of the trip illustrated the talk.

Boys' Work Secretary John Thompson was in charge.

There are 747 islands in the Mississippi river between its source and the mouth of the Red River. Below this point—309 miles from the gulf—there are only three islands.

James Swamped By Seekers Of Jobs With State

Names Of Hundreds Of Persons Suggested For Jobs Under New Administration

EVERYONE WILL GET CONSIDERATION

(International News Service)
PHILADELPHIA, Dec. 16.—Patronage seekers have swamped Governor-Elect Arthur H. James with the names of hundreds of persons for places in his administration, which takes office following his inauguration on January 17.

All are being given consideration, it was reported today. Although Judge James apparently has not reached a definite selection for any member of his cabinet or an important key post, he was believed to have cut down the field considerably.

Among those who conferred with the governor-elect today were Republican stalwarts from several sections of the commonwealth, including State Senator James J. Coyne, ex-state Senator Frank J. Harris and James J. Duff, all from Pittsburgh.

State Republican Chairman James P. Torrance will spend the week end in Harrisburg, while Judge James will go to New York to address the Pennsylvania society on Saturday evening.

Cantelupe's Trial Has Been Delayed

(Special To The News)

MERCER, Dec. 16.—According to the report of four physicians who examined him this week, Joseph Cantelupe, former Farrell tax collector, is not physically able to stand trial on the charges of embezzlement that were made against him after a \$58,000 shortage was uncovered in his school and county tax returns from Farrell.

Cantelupe was examined by Dr. Paul T. Hope, Mercer county jail physician; Dr. William H. Bund, Youngstown, O., heart specialist; Dr. M. W. Mygant, Farrell, and Dr. James A. Higgins, Sharpsville. On the basis of the report, Judge George H. Rowley ordered Cantelupe's case continued.

Chief To Aid Businessmen

Assigns Plain-Clothesman Moore To Prevent Shoplifting Here

PLACED AT DISPOSAL OF LOCAL MERCHANTS

Businessmen of the city of New Castle today had a plain-clothesman placed at their disposal in an effort to prevent shoplifting here during the Christmas-New Year's holiday season, according to Chief of Police Ralph A. Criswell. The policeman placed at their disposal is Patrolman John G. Moore, who was assigned to plain-clothes today.

It will be Moore's job to arrest purse-snatchers, pickpockets, kleptomaniacs and other persons who hope to wreck the happy disposition of businessmen and shoppers. The assignment to plain-clothes becomes effective at noon today and be effective until December 31.

According to a plan arranged by Chief Criswell, Moore will co-operate with all New Castle businessmen. He will be a free lance, to go where he pleases, at any time of day and night. Businessmen who discover goods or articles missing can immediately telephone to Chief Criswell or Moore at police headquarters.

Prof. Admits He Doesn't Know Answers Either

(International News Service)
EUGENE, Ore., Dec. 16.—"Those of you who know what the national debt is, please raise your hands."

The speaker was Dr. Robert Leeper, professor in psychology at the University of Oregon, addressing members of his class.

Not a single hand was raised. "Those of you who know what the national income is, please raise your hands."

Still no hands.

"Is it possible that out of this class, of university students, the cream of the crop and future leaders of the country, not one knows the answers to these simple questions?" he growled.

Silence reigned complete in the class room.

"Well," he said, "neither do I."

Safety Program Has Saved Many Highway Deaths

Estimate That Safety Campaign Has Saved 901 Lives In Year

(International News Service)
HARRISBURG, Dec. 16.—An analysis made by the research and statistics division of the accident prevention bureau of the revenue department disclosed today that Gov. George H. Earle's highway safety program saved 901 lives during the past year.

Inaugurated on January 1, the governor's "speed war" was credited with aiding in slashing Pennsylvania's highway death toll from 2,329 for the first 11 months of 1937 to 1,428 for the same period this year.

Reduction in injuries over the same period totaled 12,003. For 11 months last year, 55,899 persons were injured, compared to 43,896 this year.

Big Decrease
The department reported the de-

crease in fatal accidents the greatest in a calendar year within the last decade.

October was the peak month for both years. In 1937, 299 were killed that month, while this year 173 met their deaths through highway accidents.

During December of last year an additional 235 were killed, while to date this year only one fatality was reported. With the December death toll included, last year's total fatality list soared to 2,564.

In addition, the department report credited the Earle campaign on excessive speeding for a 36 per cent drop in the number of traffic fatalities, an approximate 18 per cent reduction in motor accidents and a 23 per cent decline in the number of injuries.

CHRIST'S NEW COMMANDMENT

"Brass Tacks" On The Sunday School Lesson

The Golden Text

"A new commandment give I unto you, That ye love one another; as I have loved you, that ye also love one another."—John 13:34.

(The International Uniform Lesson on the above topic for Dec. 18 is Matthew 5: 43-48; 22: 34-40; Luke 10: 25-37; John 13: 34, 35; 15: 12-14; Galatians 5: 13-14. The Golden Text being John 13:34. "A new commandment give I unto you, That ye love one another; as I have loved you, that ye also love one another.")

By NEWMAN CAMPBELL
WE HAVE been studying the ten commandments. Today we have what Jesus called a new commandment. It is so important that if we keep it we have also kept all the other ten commandments.

The "new" commandment is, "that ye love one another." Don't you see that you couldn't steal, kill, be unfaithful, or do any of the other things that are forbidden in the ten commandments Moses gave to the children of Israel, if you were just to love everyone?

Everyone should memorize Jesus' words when He said, "Ye have heard that it hath been said, Thou shalt love thy neighbor and hate thine enemy." (This was the old Jewish law.) "But I say unto you, Love your enemies, bless them that curse you, do good to them which despitefully use you, and persecute you."

"That ye may be the children of your Father which is in heaven: for He maketh His sun to rise on the evil and on the good, and sendeth rain on the just and on the unjust."

"For if ye love them which love you, what reward have ye? Do not even the publicans the same?"

"And if ye salute your brethren only, what do ye more than others? Do not even the publicans so?"

"Be ye therefore perfect, even as your Father in heaven is perfect."

If we all lived up to that standard,

The Human Side Of The News

(By EDWIN C. HILL)

Copyright 1938 King Features Syndicate, Inc.

These scientists who go flannel-shirted and booted into the wilds to pry into Nature's secrets have a grand time. Father Hubbard, the Glacier priest, just back from Alaska, sits with me for a couple of hours and tells me all about his 18 months with the Eskimo people of Bering Strait Islands.

A simple people who have found the secret of happiness, says Father Hubbard. They haven't had a murder among them in 50 years, nor an important stealing, nor a divorce. They have radio but are little interested in the outside world.

A great-hearted explorer and scientist, the Rev. Bernard R. Hubbard, S. J., is professor of geology at Santa Clara university, California, but he hasn't been working actively at that job for six years, because Santa Clara thinks it more important for him to continue his work in the Alaskan Valley of Ten Thousand Smokes, and in the glacier fields and among the Eskimos than to teach the story of rocks to Santa Clara boys. For 12 years, now, this remarkable man has been adventuring annually into Alaska and Alaskan waters, seeking the secrets of weather born in the "Cradle of Storms."

In his recent stay in the Arctic, he crossed Bering Strait in rough weather in a crude boat made from walrus skins, risked his life to prove that the Eskimo and probably the American Indian came from Asia over the Strait a few hundred thousand years ago. Though as whiplash, there is no adventure this exploring priest won't tackle. He is, indeed, of the breed of these hardy Jesuits like Father Joquet and Joliet who risked and gave their lives back in the 17th century.

He is perhaps less known as the Jesuit missionary who supports Eskimo and Indian orphan children of Alaska. He conducts his scientific expeditions to the glaciers and volcanoes of Alaska without financial backing and the scientific data he has brought back is invaluable. His mission work in the Far North must halt until an indebtedness of several thousand dollars incurred by his last expedition can be paid off. And so, to pay off that debt, and permit his great humanitarian and scientific work to go on, he has arranged a program of lectures in the beginning of January throughout the United States.

Few men alive have had such adventures as this "Priest of the Volcanoes and the Glaciers," whose passion for knowledge takes him to the smoking bowels of volcanoes that have blown off their snow-capped heads, and to age-old glaciers creeping forever to the waiting sea.

Powerful in build, with dark, lean face chiseled features, and keen brown eyes, Father Hubbard doffs his cassock, leaves his Santa Clara study, dons a flannel shirt, corduroy breeches and hob-nailed boots and is off for the thrilling and the unknown.

In the interior of Alaska, in the Valley of Ten Thousand Smokes he has climbed mountains more awe-

inspiring than the Matterhorn, more terrifying than Vesuvius. He may tell the story (as he has told it, so well to me) of the day when the volcano of Katmai exploded with a roar that quivered a continent. It blew its head off in a vast cataclysm of ashes which clouded the skies above the desert of Sahara eight thousand miles away. Millions of birds were killed as was all wild life for many miles around.

And Father Hubbard may tell again the story of how he climbed to the smoking summit of Katmai to stand upon the brink of a disem-boweled mountain and gaze fearfully down into the awful depths, straight down for a mile his gaze traveled to Dante's own inferno, the ruin of a mountain which had committed suicide. "It stunned me like a blow," said Father Hubbard to

this speaker. "The breath-taking immensity of it—the circling walls of brilliant colors, dropping down—down—interminably down—to the blue of impossible depths. I gazed speechless and then it became aware that my little dog had leaped upon me and was quivering in the circle of my arms, for he, too, had looked upon the sight below."

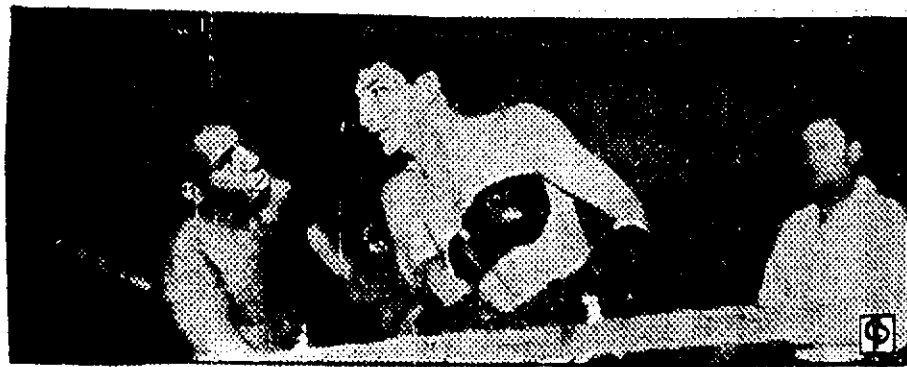

Such is the story (and many more) he may tell you in his lectures throughout the United States. Such rewards are the end of the rainbow for this great and intrepid man of God. What matters a desperate climb for days up precipitous slopes, or 36 hours in a racing blizzard, or near starvation if, comforting a little dog, one can gaze down into the broken heart of a mountain.

New Rules Will Help Baseball Moguls Believe

Adopt Uniform Ball For Both Leagues, Make New Pitching Rule

FEW TRADES ARE MADE AT MEETING

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, Dec. 16.—Lack of sensational trades made the major league meetings just ended appear the dullest in years. But after taking stock today, baseball men agreed they did more to affect the game itself than was done in a dozen previous meetings.

They adopted a uniform ball with the thinner cover of the American League and the higher stitches of the National League ball, a move that will meet with the hearty approval of all fans.

Adopt New Rules

They adopted two far-reaching changes in the playing rules. One is tantamount to giving the pitcher the right to take three steps in making his delivery; the other eliminates deliberate dropping of a fly ball by an outfielder to force a double play.

These rules will be in force everywhere baseball is played. The kid on the sandlot; the semi-pro, the collegian, and the minor leaguer will play under them. And they will be just as much in force in Cuba or Japan as they will in the United States.

The majors raised their player limit from 25 to 26, which won't be of more than academic interest to the bleachers, but the bleacherite will be interested in the fact that the American League will have night ball for the first time in Philadelphia and Cleveland. And the indications are every club soon will be playing under the lights.

Red Sox Benefit

So much for the broader outlines. What about trades? What effect, if any, will those made have on the pennant races?

Every club talked trades but few made any. More must be made for some of the pennant contenders dare not stand pat. Offhand, one may say no American League club strengthened enough to worry the Yanks. Let's put the spotlight on them.

The Yanks, who need little actually bolstered their already formidable pitching by snaring Hildebrand from the Browns. The Red Sox got Denny Galehouse and rookie Tommy Irwin from the Indians and Elden Auker, Jake Wade and Chet Morgan from the Tigers.

The men they wanted are Galehouse and Auker who should help their pitching. The rest are window dressing.

The Tigers got just what the doctor ordered when they landed Pinky Higgins from the Red Sox to play third base. They also got Archie McKain, an in-and-out southpaw.

Chapman To Indians

These deals help both clubs but still leave them a few parangas away from the Yanks. The Indians have done virtually nothing. Of course, they got outfielder Ben Chapman in the Galehouse deal but what are they going to do for a second baseman? They must get somebody but if they are to do so they will have to give something more than a loud cheer.

The Senators, White Sox, Athletics and Browns have done nothing, and plenty of it. Connie Mack could trade Bob Johnson or Wally Moses tomorrow but he won't let them go although it is hard to understand how he could finish worse without them than he did with them.

Joe Kirkwood, famous trick shot golfer, has retired to Philadelphia course as teaching "pro."

But Gordon, measuring six feet two and weighing 210 pounds, denies he's a modern Samson. In fact, he says he's no stronger than the average student at Cambridge, Mass.

Rambling Around World Of Sports

The passing away of Frank G. Heasley came as a shock to New Castle's sport circles. Heasley, an unusually talented baseball player in his younger days, was business manager of the Ryantown team for many years and was widely known. He contributed much of his time to baseball every summer. He was one of the organizers of the city baseball league and annually planned months ahead for the following diamond season.

Wes Bennett, former Westminster college cager, ranked as one of the greatest collegiate basketball players in the country a few years ago, is a member of the Akron Goodyear team. Many scribes rank him as the best performer to ever appear at Madison Square Garden, New York. Joe Kelley, this city, is holding down a berth with the strong McKeesport Big Five floor aggregation which may appear here later in the season. Albert Picutta, star guard on the New Castle high Red Hurricane eleven for two years, plans entering one of the district colleges next fall. The 170-pound Seventh Ward athlete was a powerhouse on that "Hurricane" forward trench.

Sport jottings. "Kip" Aldrich was recently voted the most valuable player on the T. C. U. eleven by his teammates. Davey O'Brien, picked by the scribes as the best pig-skinner in the land, said about "Kip": "Twice as valuable as any man on the team." The total cost of transporting the McKeesport high eleven to Florida for its current clash in Miami is close to \$2,900. Henry McLemore, as good as any sports man in the business, asked Howard

Local High Quintet Ready For Second Game Of Pre-League Schedule

New Castle high school basketball team will find Ford City high, W. P. I. A. L. winners of last year, hard nuts to crack tonight. It will be New Castle's second pre-league game. The game will be played at the Ford City high court.

Head Coach Phil Bridenbough will take the same 12 men to Ford City that made the Meadville trip. The starting lineup will probably be the same with Clark and Theopolis at the forwards, Bombyk at center and Wendra and Adamo at the guards. Cennock and Greer are almost sure to see plenty of action.

Ford City Favored

New Castle won the opening game at Meadville on Tuesday night 30 to 29, while Ford City was handing a lacing of 33 to 20 to a fast Butler high team.

Incidentally it was this Ford City team that put New Castle out of the running last year in the eliminations at Pittsburgh and the locals will strive hard to get a little revenge.

Ford City will have three of the starting five at the stadium last year on hand—Dormont at forward, Melville at center and Sotnyk at guard. New Castle does not have a regular left from last year. The boys looked rather well in taking over the Meadville Bulldogs.

The report was made to the Lawrence County Sportsmen's association during a recent sportsmen's meeting.

Yankton college, South Dakota, which won the South Dakota inter-collegiate conference football title voluntarily surrendered the title when it was learned that Joe Shunkunas freshman end was ineligible because of lack of the required number of work hours. The information was not obtained until the football season ended.

Boxing Game Big Business

Big Money Has Made Possible Big Business In Boxing Circles

JOE LOUIS IS REAL CHAMPION

(International News Service) PROVIDENCE, R. I., Dec. 16.—Big money has made boxing a business instead of a sport, Edward C. Foster, executive secretary of the National Boxing Association, asserted today.

"We would have to go back a great many years to find boxing in such a chaotic condition as it is today, and we believe that the prime reason for this condition is the money angle," said Foster.

"It is high time that some rule be adopted and enforced whereby the logical line of succession to all championships will be followed scrupulously and honestly adhered to so that boxing fans will know where he stands at all times regarding the champion of each division.

Boxing All Right
"Boxing is all right, there is nothing wrong with boxing. All it needs is some clear, sane thinking and action instead of the present confusion, so that boxing can again become what it was originally intended to be, a sport and not a business."

Joe Louis was declared a "real champion" by Foster who said that it probably will be a long time before anyone beats the Detroit Bomber.

Deploping the practice of champions of one division entering the class above them without first relinquishing their titles, Foster expressed doubt that John Henry Lewis, light-heavyweight champion, would ever make the 175-pound weight again. Lewis has signed to meet Joe Louis in a heavyweight title fight.

GAME IS RE-SCHEDULED
Due to a mix-up in dates, the N. Y. A. Polish Falcon game last night at the Falcon hall was cancelled and will be rescheduled for Tuesday, December 20. The game will start at 8:30 o'clock.

POPULATION OF REICH ESTIMATED AT 78,700,000

(International News Service) BERLIN—Now that the Sudeten zone has been included in the Reich, greater Germany's population has risen by 3,595,000 to 78,700,000 according to the organ of the Reich's statistical department.

The Sudeten population is calculated on the 1930 census. The total area of the Reich now covers about 228,000 square miles including the Sudeten zone of some 11,000 square miles.

Sudetenland has practically the same density of population as the rest of Germany, it is pointed out, but it is more industrialized. More than half the population earn their living in industry, a quarter in agriculture and forestry and an eighth in trade and transport.

SHE STILL SHOOT BIRDIES

Gienna Collett Vane at Pinehurst

Former queen of golf, Mrs. Gienna Collett Vane, of Philadelphia, still is shooting birdies, but with a gun now. The six-time holder of the woman's link championship takes part in the field trials of the Pointer club at Pinehurst, N. C.

Wyoming Female Ropes Coyotes 'Just For Fun'

(International News Service) RAWLINS, Wyo.—Wyoming still is the state where men are men and women tote guns and rope coyotes with bailing wire lassos.

At any rate, Mrs. James Karstoft, whose husband is a hunter for the biological survey bureau here, does just that to keep from becoming bored during winter afternoons.

"I haven't done it often, and I don't talk about it much because there are cynics even out West," the wiry 37-year-old ranchwoman said. "But every once in a while I run down a coyote and lasso him, just for fun."

Instead of her usual rope lasso, Mrs. Karstoft uses a piece of bailing wire on coyotes, "because wire is harder to chew."

The usual procedure, she said, is to single out a coyote while riding over the plains horseback. Then she runs him down.

"It takes a lot of time and is hard on the horse but it's a lot of fun when you finally snap the noose over their heads."

Mrs. Karstoft's hobby has its practical side, too. She uses the coyote hides for rugs in her home.

War Scare Cures Many Ills, French Pharmacist Finds

(International News Service) PARIS—A world-war scare is drastic and expensive medicine with which to cure the minor ailments of a nation but a Parisian pharmacist who normally does a hand-to-hand business in cure-alls is convinced that it is a 100 per cent effective medicine.

According to this druggist, business was terrible during the trying week before the Munich conference.

He compared his observations with many other pharmacists, sociologists and others who had made a study of the same phenomenon and came to the conclusion that people tend to completely forget their headaches, colds and indigestion when they have something really important to worry about. He has no use for war.

Hunter's Cowbell 'Unfair' To Deer, Officials Believe

(International News Service) SACRAMENTO—Officials of the State Fish and Game Commission perused hunting laws but finally decided Gimlan Lowe, of North San Juan, was guilty of no violations but was perhaps a "little unfair" to the deer he seeks to slay.

Lowe claims he has a foolproof method of bagging deer and at the same time protecting himself from other hunters. He attaches a cowbell to one of his thighs and when he walks it clatters thus warning other hunters not to shoot.

And what do the deer think about it? Lowe says they think he is a stray cow wandering around and pay no attention to him.

Generators For Grand Coulee Dam Near Completion
(International News Service) PHILADELPHIA—Westinghouse plants here and in East Pittsburgh are working on the world's greatest power generators to be used at Grand Coulee Dam near Spokane, Wash.

The three generators, which will cost Uncle Sam \$2,821,450, will be 30 per cent more powerful than any now in this country. Their combined output, it was estimated, will reach 324,000,000 watts—enough to light both New York and Chicago.

More than 4,500,000 pounds of steel and about 300 miles of copper wire will go into the vast machines, which will require 100 freight cars to carry them to the dam.

Boosters Drill For Ambridgers

New Castle Boosters hope to win their fourth consecutive victory Sunday afternoon when the local cagers battle Ambridge P. C. passers on The Arm court.

Coch P. Fraser sent his proteges through a long workout in preparation for the coming tilt.

The Ambridgers have one of the smoothest functioning teams in the valley, according to reports. A fast preliminary will be played starting promptly at 2:15 o'clock.

(International News Service) Tommy Farr, Wales, heavyweight who has lost his only three fights in the United States, is a favorite to beat Lou Nova, a newcomer from California, in the 15-round bout in New York tonight.

Last night's hockey results: Boston increased its league lead by beating Montreal, 1-0. The New York Americans and New York Rangers battled to an overtime one-all deadlock. Chicago and Toronto struggled to a four-all tie.

English Tycoon Dies In French Rail Accident
(International News Service) PARIS—Sir Arthur Crossfield, millionaire English soap king, was killed recently when he fell from the Geneva-Vintimiglia express roaring toward the French Riviera at 70 miles an hour.

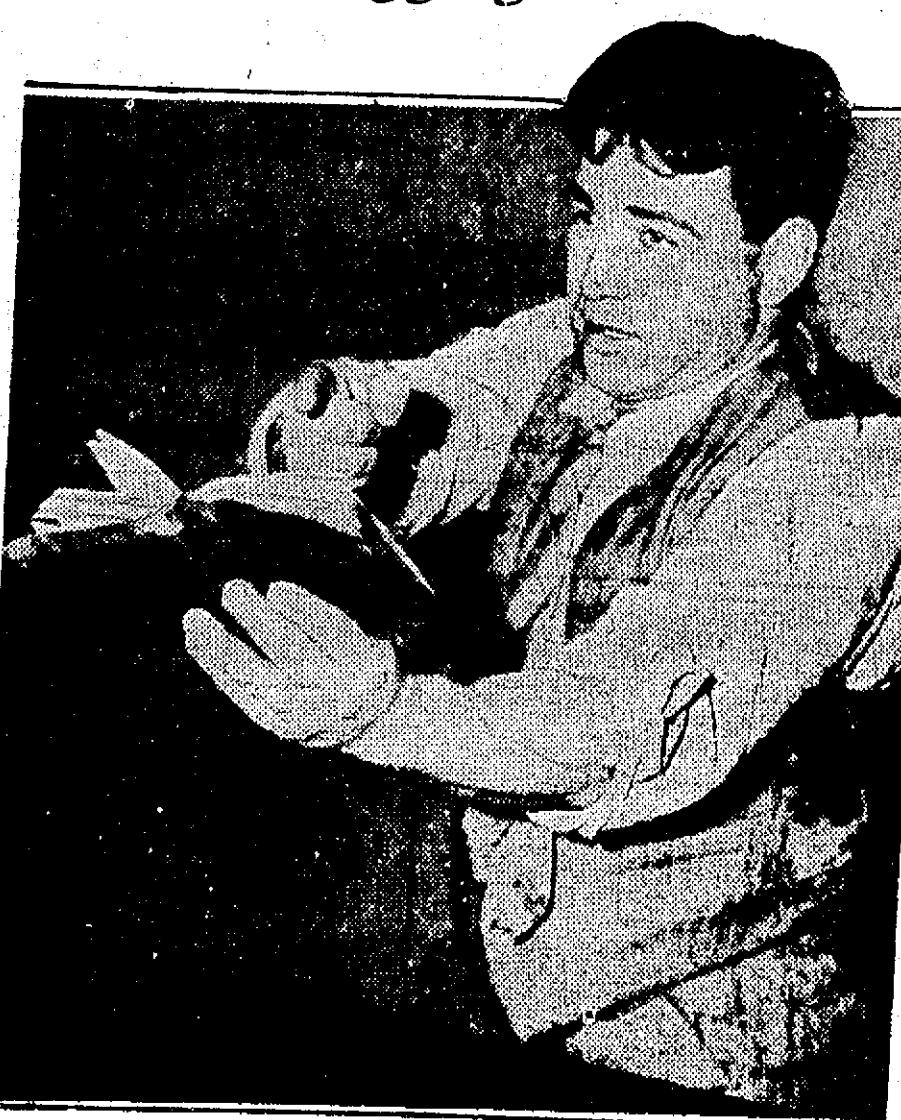

Sir Arthur left his compartment during the night, proceeded to the end of the coach and apparently mistook the coach door for the lavatory door. A sleeping attendant saw his body fly past the window and pulled the emergency cord. Although the engineer braked immediately, the train was brought to a halt four miles from where Sir Arthur fell from the train.

It is believed that a lurch caused by the passage of the train over a set of points caused him to lose his balance.

There have been several similar incidents on crack French trains during recent years.

France's Bravest Army Fort Dog Dies In Uniform

(International News Service) PARIS—France's most courageous army fort dog has died in uniform. For eight years Flambeau has carried the mails up to the fort of Sauliers, 7,000 feet above sea level in the mountains near Lanslebourg. Winter and summer the dog arrived regularly on time with the little mail bags strapped around him. Never once did he lose the mail, according to officials. Recently it was decided that Flambeau was too old and was to be retired with a pension of a free

dog-house, food and an occasional bone. But Flambeau refused to accept his honorable retirement. On the very next day his kennel was found empty. Flambeau arrived triumphantly at the fort but so exhausted after the climb that he died a few hours later.

(International News Service) BUDAPEST, Hungary—A chivalrous minded thief sent back passport and boat passenger ticket to Miss Emma Bauman, a New York school teacher, whose handbag he stole in a public park. Miss Bauman was sitting on a bench of the park, with some friends when the thief passed by and stole

the bag. It contained \$40 besides the passport and ticket. Next day the papers were sent back to her with an unsigned letter from the thief.

Stock Market Is Irregular

Eases Somewhat Today After Several Days of Increasing Prices

By LESLIE GOULD
International News Service Financial Writer

NEW YORK, Dec. 16.—The stock market eased today under light profit-taking, which was carried over from the previous close. A few leaders, though, bucked the trend for small gains.

The opening was irregularly lower. Steadier tendencies developed soon after, but light selling before noon brought the market back to early lows. Most pivotal issues held within a narrow trading range.

Fractional declines were shown by U. S. Steel, Youngstown International Nickel, Union Carbide, Johns-Manville, Westinghouse Electric, Texas Corp., American Can, Pullman, N. Y. Central and Southern Pacific.

U. S. Smelting and Case each dropped more than a point, while Owens-Illinois Glass and Douglas Aircraft ran up as much.

Chrysler and U. S. Rubber held close to last night's final quotations.

LITTLE ORPHAN ANNIE—WE TOO

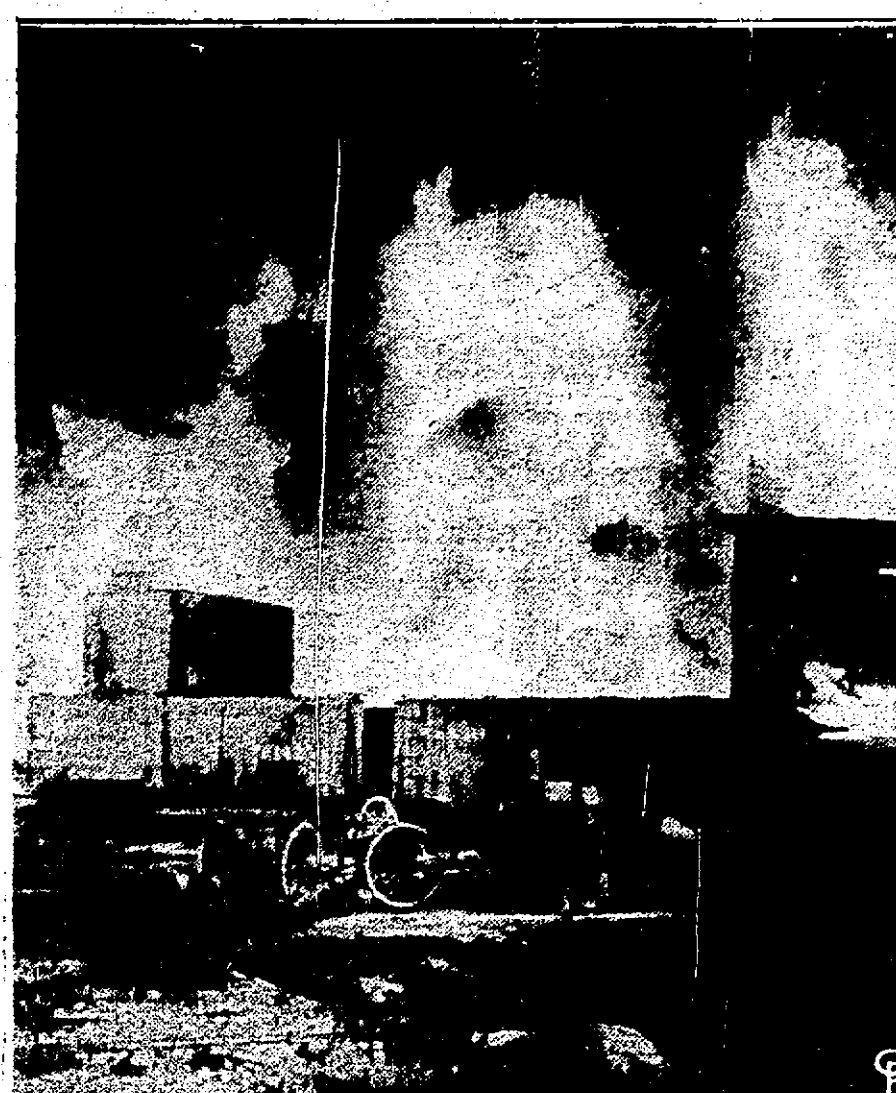

Garner Kin Look Ahead

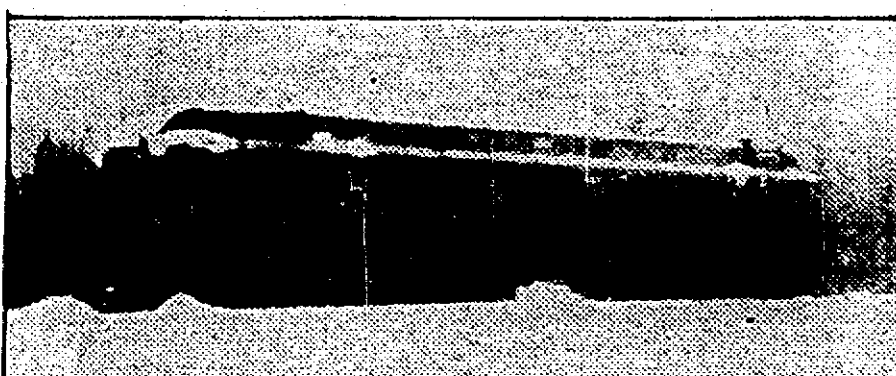

At a rally of Texans in Detroit, two sisters, a brother and a niece of Vice-President John Nance Garner joined in the "Garner for President" boom, at the log cabin where Mr. Garner's mother was born. Left to right: Mrs. Fred Moore, niece; Mrs. Maud Blair, Jesse L. Garner, Mrs. J. R. Wright.

"Gone with the Wind"

Here, actually, is the first scene filmed for "Gone with the Wind!" The fire sequence represents the burning of Atlanta by Confederate troops during Sherman's march to the sea. The studio, at Culver City, Cal., burned 40 acres of old movie sets to clear a location for further filming—and took advantage of the blaze to shoot a mid-picture scene.

SCHOOL GOES TO PUPILS HERE!

Introducing the little red schoolhouse—on wheels. This traveling schoolhouse brings educational opportunities to children in thinly populated districts of northern Ontario, Canada. Most of the children attending the school car are sons and daughters of railway company employees. Others are recruited from families of trappers, miners and farmers. The car stops for three days at a given point, imparting lessons and then moves on to the next stop. The teacher gives the pupils enough home work to keep them out of mischief until the return of the car. In winter the temperature sometimes goes to 60 below zero and frequently heavy snows delay the car. But school goes on just the same—in a most unusual manner.
